Subject: Notice to Proceed (NTP) 2 – South Bay Substation Relocation Project – Construction Activities Associated with the Bay Boulevard Substation (Application No. A.10-06-007).

Dear Mr. Houston:

San Diego Gas & Electric (SDG&E) has requested authorization from the California Public Utilities Commission (CPUC) to commence all construction activities necessary for construction of the Bay Boulevard Substation as described in the SDG&E NTP Request #2 dated March 9, 2015.

The South Bay Substation Relocation Project was evaluated in accordance with the California Environmental Quality Act (CEQA) and a Permit to Construct (PTC) was granted by the CPUC on October 17, 2013, (Decision D.13-10-025). **NTP 2 is granted by CPUC for the proposed construction activities based on the following factors:**

- The Final EIR and Addendum prepared for the South Bay Substation Relocation project defined required mitigation measures to be implemented prior to project construction. The relevant mitigation measures for construction activities under this Notice to Proceed are summarized in *Attachment A* and shall be implemented by SDG&E and its designated contractor. SDG&E's compliance with the pre-construction component for each measure is noted in the status table.

The conditions noted below shall be met by SDG&E and its contractors:

- APM-AES-01: SDG&E to provide the Final Landscape Plan upon California Coastal Commission approval of the Coastal Development Plan for the Project.
- APM-AES-02: SDG&E to provide proposed color palette of substation perimeter wall to CPUC for verification prior to implementing this measure.
- MM HYDRO-2a: The waiver for Discharge to Land shall be submitted to the CPUC prior to conducting dewatering activities.

Mr. Don Houston
March 17, 2015

Sincerely,

Jensen Uchida
CPUC Environmental Project Manager
