Good afternoon, this action will not require a 408 permit. Can you please provide me with the current lease # (DACW) that is associated with SCE for this location.

Thank you

Good morning,

I have a meeting at 2:30 to report out on the 408 application. Please provide a status update ASAP. This information is needed in order to move forward with the water permits for the Mesa substation project.

If you have any questions or need additional information, please call me at (626) 302-7747 or Pax 27747.

Thank you,

Laura L. Solorio
