**RE: Review of Southern California Gas (SoCalGas) and San Diego Gas and Electric (SDG&E) Application (A. 13-12-013) for rate recovery for the proposed North South Gas Pipeline project.**

Dear Ms. Kinnahan:

Southern California Gas (SoCalGas) and San Diego Gas and Electric (SDG&E) submitted Application 13-12-013 for construction and operation of the North South Pipeline. The Energy Division has completed its review of the SoCalGas and SDG&E application to construct the North South Gas Pipeline Project. With the supplemental data and information provided by SoCalGas, the Energy Division finds that the Application and Proponent's Environmental Assessment contain sufficient information to satisfy the requirements of the Commission's Information and Criteria List and can now be deemed complete. Please note that this determination has been made with the understanding that the Energy Division may request additional data, as necessary, to review and analyze the environmental effects of the proposed project in accordance with requirements of the California Environmental Quality Act and National Environmental Policy Act.

Please do not hesitate to call me at (415) 703-1956 if you have any questions.

Sincerely,

A handwritten signature in black ink, appearing to read "Eric Chiang".
