Subject: 15-day Pre-survey Notification for Protocol Coastal California Gnatcatcher Surveys for a Potential Enhancement to the San Diego Gas & Electric Company's Natural Gas System, San Diego County, California

Ms. Love:

This letter serves as the pre-survey notification for coastal California gnatcatcher (*Poliophtila californica californica*; CAGN) surveys for a potential enhancement to the San Diego Gas & Electric Company natural gas system (Proposed Project) in San Diego County, California. The Proposed Project crosses the cities of Escondido, Poway, and San Diego; the unincorporated communities of San Diego County; and federal land. The Proposed Project is located within the following U.S. Geological Survey (USGS) 7.5-minute series quadrangle maps:

- La Mesa
- Poway
- Escondido
- Valley Center
- San Marcos
- Bonsall
- Temecula

Three protocol breeding surveys will be conducted between February 15 and August 30, 2015 within approximately 1,200 acres of suitable CAGN habitat. Ms. Lee Ripma (TE-221290-3.1), Ms. Shannon Walsh (authorized individual under TE-221290-3.1), Mr. Jim Rocks (TE-063230-4), and Mr. Brian B. Lohstroh (TE-063608-5) will conduct surveys. A 45-day technical report of findings will be submitted in accordance with protocol guidelines.

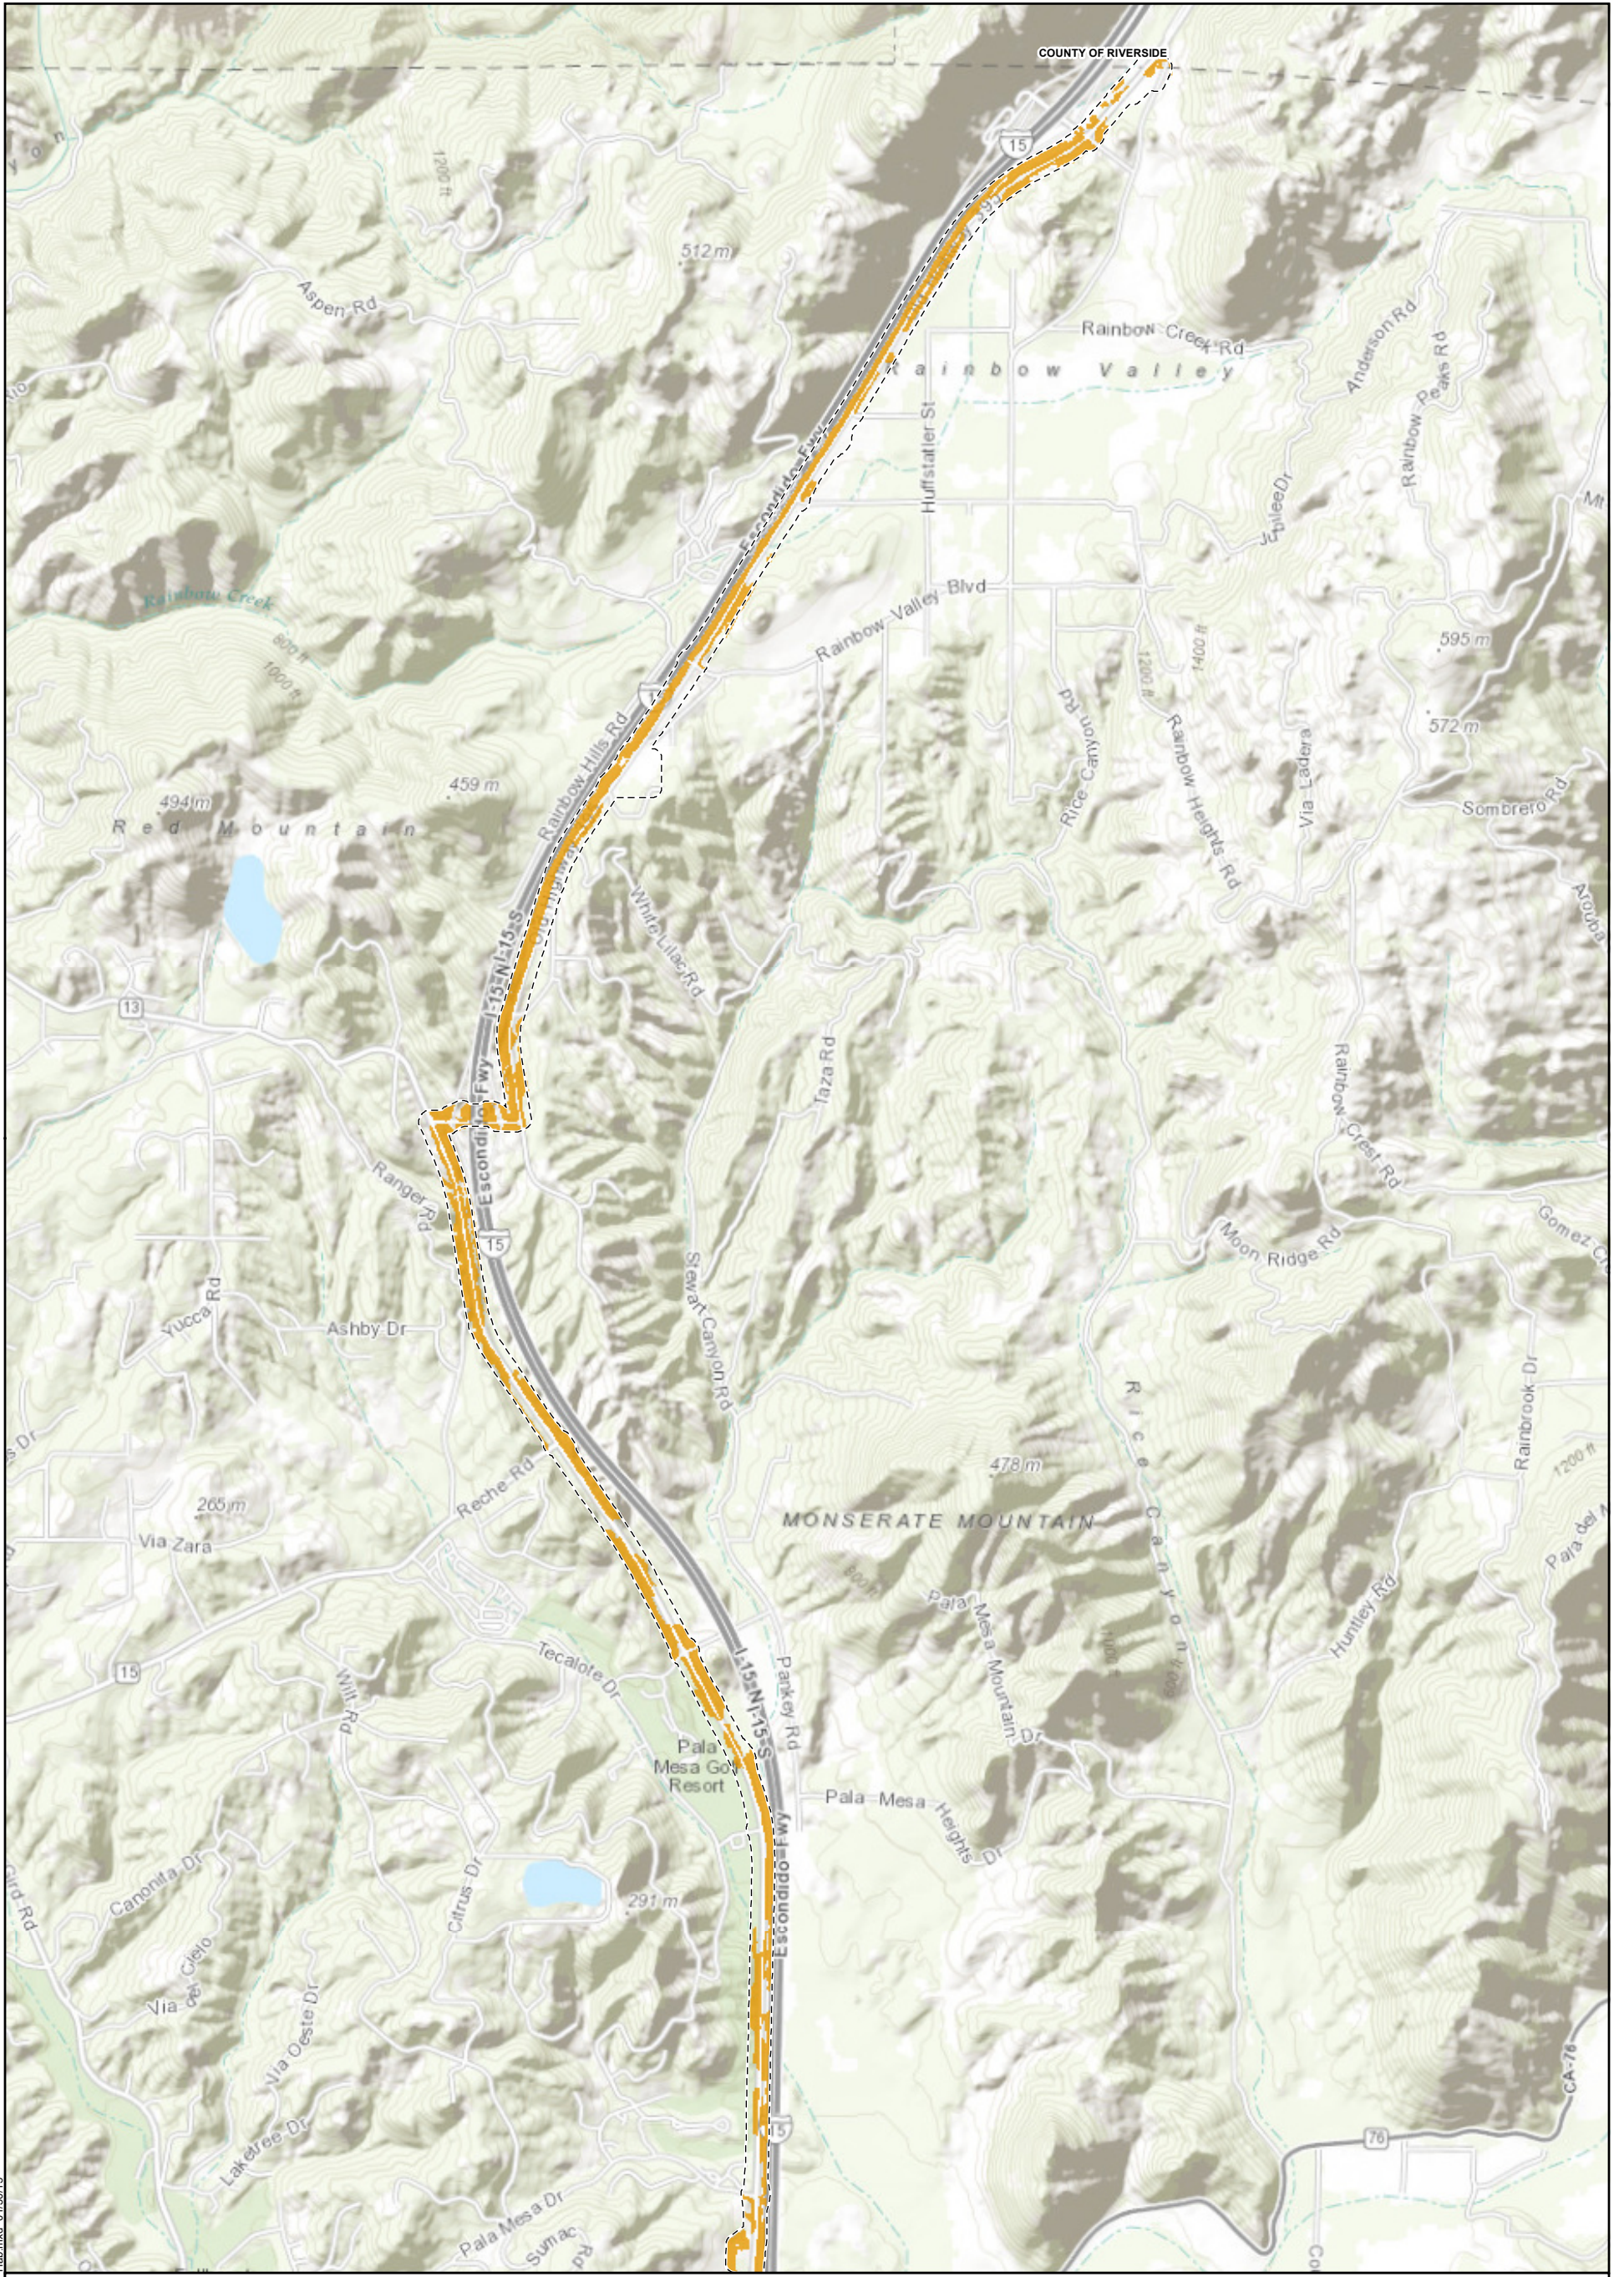

Please feel free to call me at (619) 508-3803 should you have any questions or concerns.

Sincerely,

A handwritten signature in black ink, appearing to read "Lee Ripma".

Subject: 15-day Pre-survey Notification for Protocol Quino Checkerspot Butterfly Surveys for a Potential Enhancement to the San Diego Gas & Electric Company's Natural Gas System, San Diego County, California

Ms. Love:

This letter serves as the pre-survey notification for Quino Checkerspot Butterfly (*Euphydryas editha quino*; QCB) surveys for a potential enhancement to the San Diego Gas & Electric Company natural gas system (Proposed Project) in San Diego County, California. The Proposed Project crosses the cities of Escondido, Poway, and San Diego; the unincorporated communities of San Diego County; and federal land. The Proposed Project is located within the following U.S. Geological Survey (USGS) 7.5-minute series quadrangle maps:

- La Mesa
- Poway
- Escondido
- Valley Center
- San Marcos
- Bonsall
- Temecula

Protocol surveys will be conducted during the flight season in suitable habitats as defined by the U.S. Fish and Wildlife Service (USFWS) Quino Checkerspot Butterfly Survey Guidelines, dated December 15, 2014. The total QCB suitable habitat area is approximately 300 acres located exclusively within Marine Corps Air Station Miramar. Ms. Lee Ripma (TE-221290-3.1), Mr. Jim Rocks (TE-063230-4), Ms. Melanie Rocks (TE-082908-1) and Mr. Brian Lohstroh (TE-063608-5) will conduct surveys. A 45-day technical report of findings will be submitted in accordance with protocol guidelines.

Please feel free to call me at (619) 508-3803 should you have any questions or concerns.

Sincerely,

A handwritten signature in black ink, appearing to read "Lee Ripma".

Hi Stacey,

Please 15-day notifications for QCB and CAGN surveys for a SDGE Natural Gas Potential Project and don't hesitate to contact me should you have any questions or concerns.

Thank you,
Lee

Hi Stacey,

Please find the QCB 45 day report for the Line 3602 Natural Gas Transmission Proposed Project attached to this email. I will also send a hardcopy in the mail. Please let me know if you have any questions or concerns.

Thank you,
Lee

Subject: Line 3602 Natural Gas Transmission Project CAGN 45 day report

Hi Stacey,

This email is to inform you that a hardcopy and digital (CD) report from the Line 3602 Natural Gas Transmission Project were put in the outgoing mail today. Please don't hesitate to let me know if you have any questions about the CAGN report.

Thank you,
Lee
