

Appendix F: Minor Project Refinement Form

Provide basic information:

MPR Request Number:

Date Submitted to CPUC:

Requested Approval Date:

Anticipated Start Date for Proposed Action:

Anticipated End Date for Proposed Action:

Describe the proposed minor Project refinement, including an explanation for why the refinements are necessary:

Describe the dimensions and area of any additional work areas and land disturbance associated with the proposed refinements. Include/attach photos, maps, or other documentation illustrating the existing conditions in the area:

Provide a summary list of applicable Project requirements (e.g., MMs, etc.) for which the refinements are being requested:

Would the proposed refinements conflict with any of the above-listed MMs or other Project requirements or applicable laws, regulations, or policies?	No	Yes
<i>Explain proposed refinements consistency/inconsistency with applicable Project requirements below.</i>	<input type="checkbox"/>	<input type="checkbox"/>

Would the Proposed Project refinements result in a new impact, or increase the severity of a previously analyzed impact on:	No	Yes
Aesthetics (e.g. damage scenic resources or vistas, degrade the existing visual character of the site and its surroundings, or create sources of light or glare)? <i>IS/MND Significance: Less than Significant with Mitigation</i>	<input type="checkbox"/>	<input type="checkbox"/>

Summary of Proposed Project Refinement Impacts on Aesthetics:

Agriculture and Forestry (e.g. convert farmland to non-agricultural use, or forest land to non-forest use, or create a conflict with existing agricultural zoning or a Williamson Act)? <i>IS/MND Significance: Less than Significant</i>	<input type="checkbox"/>	<input type="checkbox"/>
---	--------------------------	--------------------------

Summary of Proposed Project Refinement Impacts on Agriculture and Forestry:

Air Quality (e.g. violate any air quality standard, or produce criteria air pollutant emissions, or expose sensitive receptors to additional pollutants)?

IS/MND Significance: Less than Significant with Mitigation

Summary of Proposed Project Refinement Impacts on Air Quality:

Biological Resources (e.g. have an adverse effect on sensitive or special-status species; impact riparian, wetland, or any other sensitive habitat; or interfere with the movement of native resident or migratory fish or wildlife)?

IS/MND Significance: Less than Significant with Mitigation

Summary of Proposed Project Refinement Impacts on Biological Resources:

Cultural Resources (e.g. cause an adverse change to a significant historical, archeological, paleontological, or tribal resource or disturb any human remains)?

IS/MND Significance: Less than Significant with Mitigation

Summary of Proposed Project Refinement Impacts on Cultural Resources:

Geology, Soils, and Seismicity (e.g. expose people or structures to risk of loss, injury, or death involving seismic-related ground failure including liquefaction or landslides, be located on a geologic unit, unstable soil, or expansive soil)?

IS/MND Significance: Less than Significant with Mitigation

Summary of Proposed Project Refinement Impacts on Geology, Soils, and Seismicity:

Greenhouse Gas Emissions (e.g. generate a substantial amount of greenhouse gas [GHG] emissions, conflict with an applicable plan, policy, or regulation adopted for the purpose of reducing emissions or GHGs)?

IS/MND Significance: Less than Significant

Summary of Proposed Project Refinement Impacts on Greenhouse Gas Emissions:

Hazards and Hazardous Materials (e.g. create hazards to public or environment through transport, use, disposal, or accident conditions of hazardous materials, be located on a site of hazardous materials, or expose people and structures to loss, injury of death involving wildland fires)?

IS/MND Significance: Less than Significant with Mitigation

Summary of Proposed Project Refinement Impacts on Hazards and Hazardous Materials:

Hydrology and Water Quality (e.g. violate water quality standards or discharge waste requirements, alter the existing drainage pattern creating additional sedimentation, runoff water, or polluted runoff, or inundate by seiche, tsunami, or mudflow)?

IS/MND Significance: Less than Significant with Mitigation

Summary of Proposed Project Refinement Impacts on Hydrology and Water Quality:

Land Use and Planning (e.g. physically divide an established community; conflict with a land use plan, policy, or regulation of an agency with jurisdiction over the project, or conflict with a habitat conservation plan)?

IS/MND Significance: No Impact

Summary of Proposed Project Refinement Impacts on Land Use and Planning:

Mineral Resources (e.g. result in the loss of known mineral resources of regional and/or state value, or availability of locally-important mineral resource recovery site delineated on a local general plan, specific plan, or other land use plan)?

IS/MND Significance: No Impact

Summary of Proposed Project Refinement Impacts on Mineral Resources:

Noise and Vibration (e.g. expose sensitive receptors to additional noise or vibration, exposure of persons to or generation of excessive noise, ambient noise, ground-borne noise, or vibration)?

IS/MND Significance: Less than Significant with Mitigation

Summary of Proposed Project Refinement Impacts on Noise and Vibration:

Population and Housing (e.g. directly or indirectly induce substantial population growth in an area, or displace substantial numbers of people or existing housing)?

IS/MND Significance: No Impact

Summary of Proposed Project Refinement Impacts on Population and Housing:

Public Services and Utilities (e.g. result in substantial adverse physical impacts on government facilities that provide a public service or cause environmental impacts to service ratios, response times, or other performance objectives to fire protection, sheriff protection, schools, parks, or other public facilities)?

IS/MND Significance: Less than Significant

Summary of Proposed Project Refinement Impacts on Public Services and Utilities:

Recreation (e.g. increase the use of, or cause adverse effects on, existing neighborhood, parks, or other recreational facilities)?

IS/MND Significance: Less than Significant

Summary of Proposed Project Refinement Impacts on Recreation:

Transportation and Traffic (e.g. increase hazards due to design feature, result in inadequate emergency access, or conflict with adopted policies, plans, or programs regarding public transit, bicycle, or pedestrian facilities)?

IS/MND Significance: Less than Significant with Mitigation

Summary of Proposed Project Refinement Impacts on Transportation and Traffic:

Describe any applicable consultation with other governmental agencies conducted for the proposed refinements:
