RE: Opposition to SE-PLR-2, Templeton – S. River Route Alternative

Dear Dr. Engels,

I strongly oppose the S. River Route Alternative for the following reasons:

***Transmission lines in a Wildlife area will greatly increase our risk of fire.***

Santa Ysabel Ranch is located within a High Fire Hazard Zone. It's been well documented that transmission lines caused numerous of devastating fires in California. Please do not put our community at risk by allowing this route to proceed.

Our resident wildlife would be endangered by the power lines on South River Road. There are several Golden Eagle nests on SYR. The construction of these lines could kill them due to collisions or electrocution not to mention if the transmission lines caused a fire.

For the sake of public safety and wildlife preservation, please do not put a transmission line along S. River Road.

Sincerely,
