Subject: OPPOSITION TO SE-PLR-2, TEMPLETON/S. RIVER ROUTE
ALTERNATIVE-ESTRELLA SUBSTATION AND PASO ROBLES AREA
REINFORCEMENT PROJECT

Dear Dr. Engels,

Our home in Santa Ysabel Ranch will overlook S. River Road and the enormous pylons proposed for this project. Not only will the natural beauty of the area be lost, but the risk of catastrophic fire will be so much greater. In addition, we have young children and I am very concerned about the longterm and consistent exposure to the electromagnetic field generated by these transmission lines.

Please do not put my family and other families in danger. Vote to oppose SE-PLR-2.

Thank you for your consideration.
