SUBJECT: CEQA Document Type Determination for NextEra Energy Transmission West, LLC (NEET West) Suncrest Dynamic Reactive Power Support Project (A.15-08-027)

Dear Mr. Flajole:

The California Public Utilities Commission's (CPUC's) Energy Division, Infrastructure Permitting and CEQA section provided a list of deficiency items to NEET West on October 1, 2015 regarding their application and Proponent's Environmental Assessment (PEA) for a Certificate of Public Convenience and Necessity.

Although the application and PEA have not yet been deemed complete, the CPUC has gathered enough information to determine that an Environmental Impact Report will be required. Complete responses to each deficiency item are still necessary for the CPUC to deem the application and PEA complete as specified in the October 1st letter.

Sincerely,

A handwritten signature in black ink, appearing to read "Rob Peterson".

Rob Peterson
Energy Division, Infrastructure Permitting and CEQA
(415) 703-2820, rp3@cpuc.ca.gov
