RE: PG&E Fulton-Fitch Mountain 60kV Reconductoring Project, Sonoma County, California

Dear Ms. Sanchez,

North Coast Resource Management has been retained by the Pacific Gas and Electric Company to complete an archaeological field survey of approximately 8-miles of the Fulton-Hopland 60kV transmission line between Fulton and Fitch Mountain substations in the vicinity of the City of Windsor, Sonoma County, California. The legal description for the project is as follows:

USGS Quad	Township	Range	Section	Meridian
Healdsburg	T9N	R9W	Unmapped section	Mnt. Diablo
Healdsburg	T9N	R9W	36	Mnt. Diablo
Healdsburg	T8N	R8W	6	Mnt. Diablo
Healdsburg	T8N	R8W	7	Mnt. Diablo
Healdsburg	T8N	R8W	8	Mnt. Diablo
Healdsburg	T8N	R8W	17	Mnt. Diablo
Healdsburg	T8N	R8W	20	Mnt. Diablo
Healdsburg	T8N	R8W	21	Mnt. Diablo

We are requesting that you: (1) check the Sacred Lands Files for these areas to see if any sites are present in the project area, and (2) provide a complete list of Native American contacts for the project.

Thank you in advance for your efforts!

Sincerely,

Alex DeGeorgey, M.A., RPA

RE: Proposed PG & E Fulton-Fitch Mountain 60kV Reconductoring Project; Sonoma County.

Dear Mr. DeGeorgey:

A record search of the Sacred Lands File indicates the presence of Native American cultural resources in the vicinity of your larger project, which may be impacted (Sacred Power Site, Healdsburg Quad, USGS topographical coordinates, T 9n, R 9w, unmapped Section 36 in Sonoma county). Please contact the tribes and individuals on the attached Native American Contact List in order to determine if your project will impact this site.

The presence or absence of specific site information in the Sacred Lands File does not indicate the absence of other cultural resources in any project area. Other sources of information regarding cultural resources in your project area should also be contacted for information regarding known and recorded sites. I suggest you consult with all of those on the accompanying Native American Contacts list, if they cannot supply information, they might recommend others with specific knowledge about cultural resources in your project area. If a response has not been received within two weeks of notification, the Commission requests that you follow-up with a telephone call to ensure that the project information has been received.

If you receive notification of change of addresses and phone numbers from any these individuals or groups, please notify me. With your assistance we are able to assure that our lists contain current information. If you have any questions or need additional information, please contact me at (916) 653-4040.

Sincerely,

A handwritten signature in cursive script that reads "Katy Sanchez".

RE: PG&E Fulton-Fitch Mountain 60kV Reconductoring Project, Sonoma County, California

Dear Cultural Resources Representative,

North Coast Resource Management has been retained by the Pacific Gas and Electric Company to complete an archaeological field survey of approximately 8-miles of the Fulton-Hopland 60kV transmission line between Fulton and Fitch Mountain substations in the vicinity of the City of Windsor, Sonoma County, California. PG&E proposes to reductor the transmission line. Work may include installation replacement utility poles, installation of new transmission lines, clearing of vegetation, and other potential ground disturbing activities. The legal description for the project is as follows:

USGS Quad	Township	Range	Section	Meridian
Healdsburg	T9N	R9W	Unmapped section	Mnt. Diablo
Healdsburg	T9N	R9W	36	Mnt. Diablo
Healdsburg	T8N	R8W	6	Mnt. Diablo
Healdsburg	T8N	R8W	7	Mnt. Diablo
Healdsburg	T8N	R8W	8	Mnt. Diablo
Healdsburg	T8N	R8W	17	Mnt. Diablo
Healdsburg	T8N	R8W	20	Mnt. Diablo
Healdsburg	T8N	R8W	21	Mnt. Diablo

A check of the Sacred Lands File by the Native American Heritage Commission indicates the presence of a Native American cultural resource in the vicinity of the project. The resource is described as a *Sacred Power Site* and is located on the USGS 7.5' Healdsburg Quad.

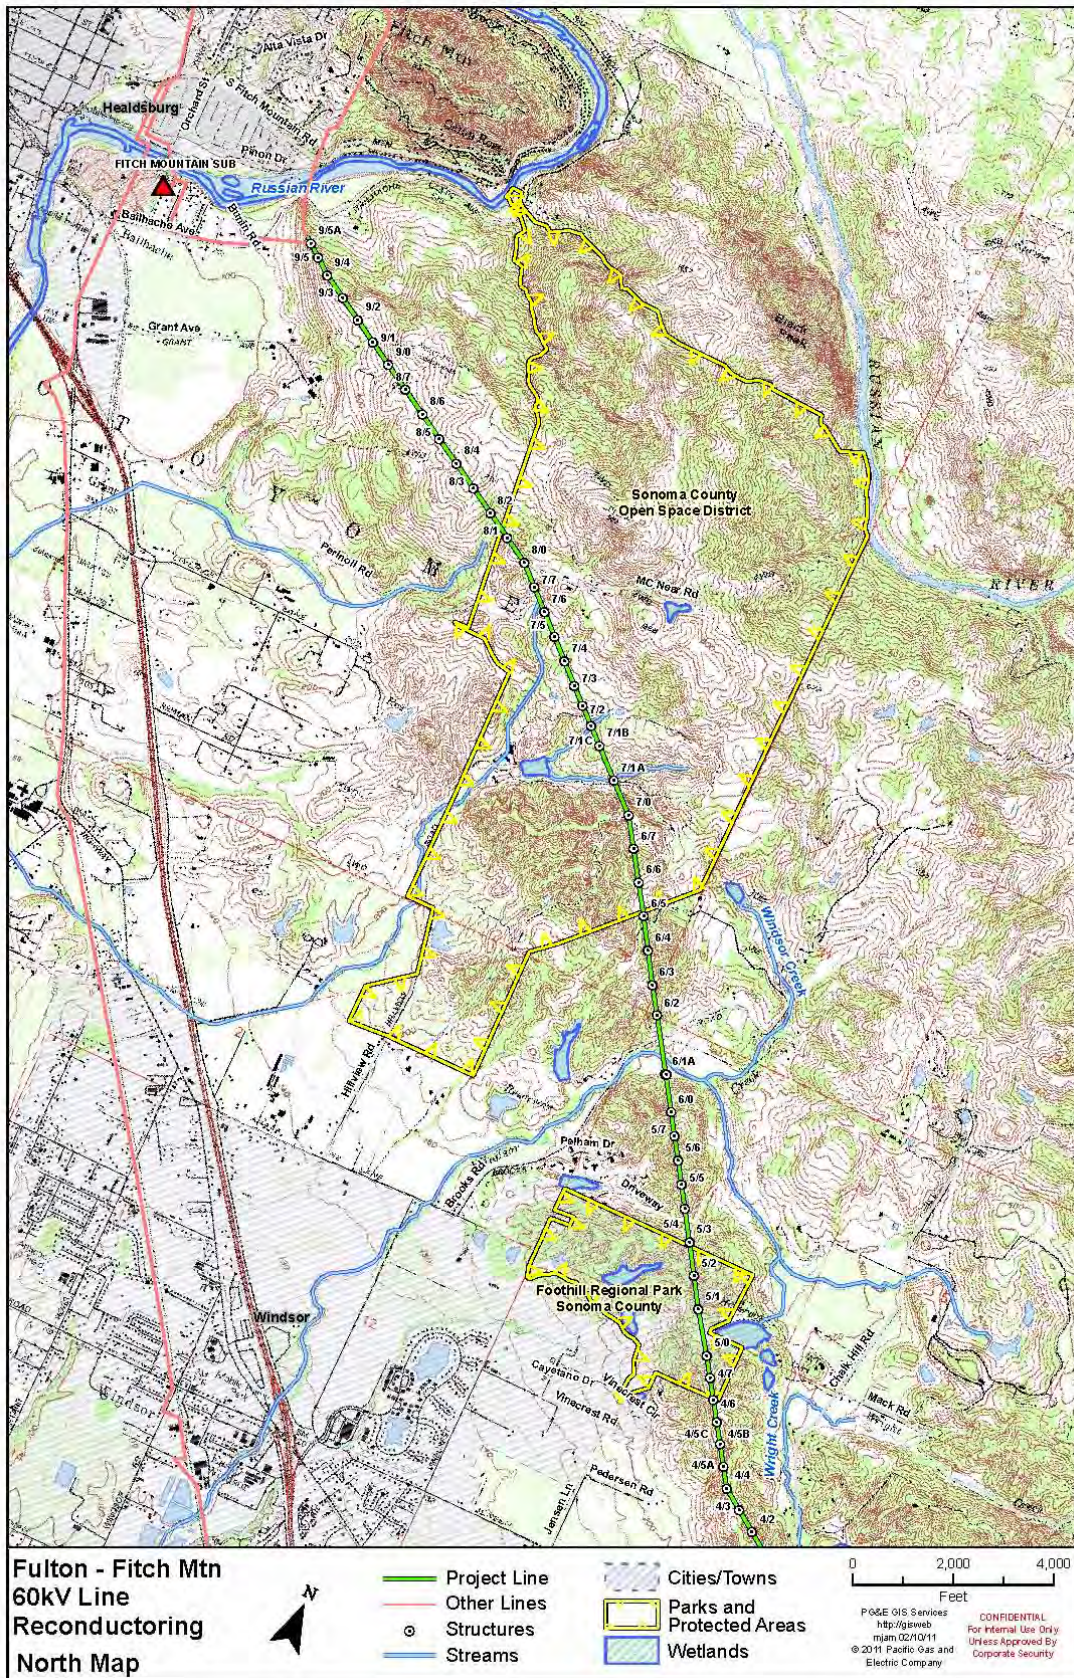

We are writing this letter to solicit any concerns or comments you may have about the project. Please feel free to contact me directly at with any questions or to discuss the project in more detail. My personal cell number is (530) 570-7172.

Thank you in advance for your efforts.

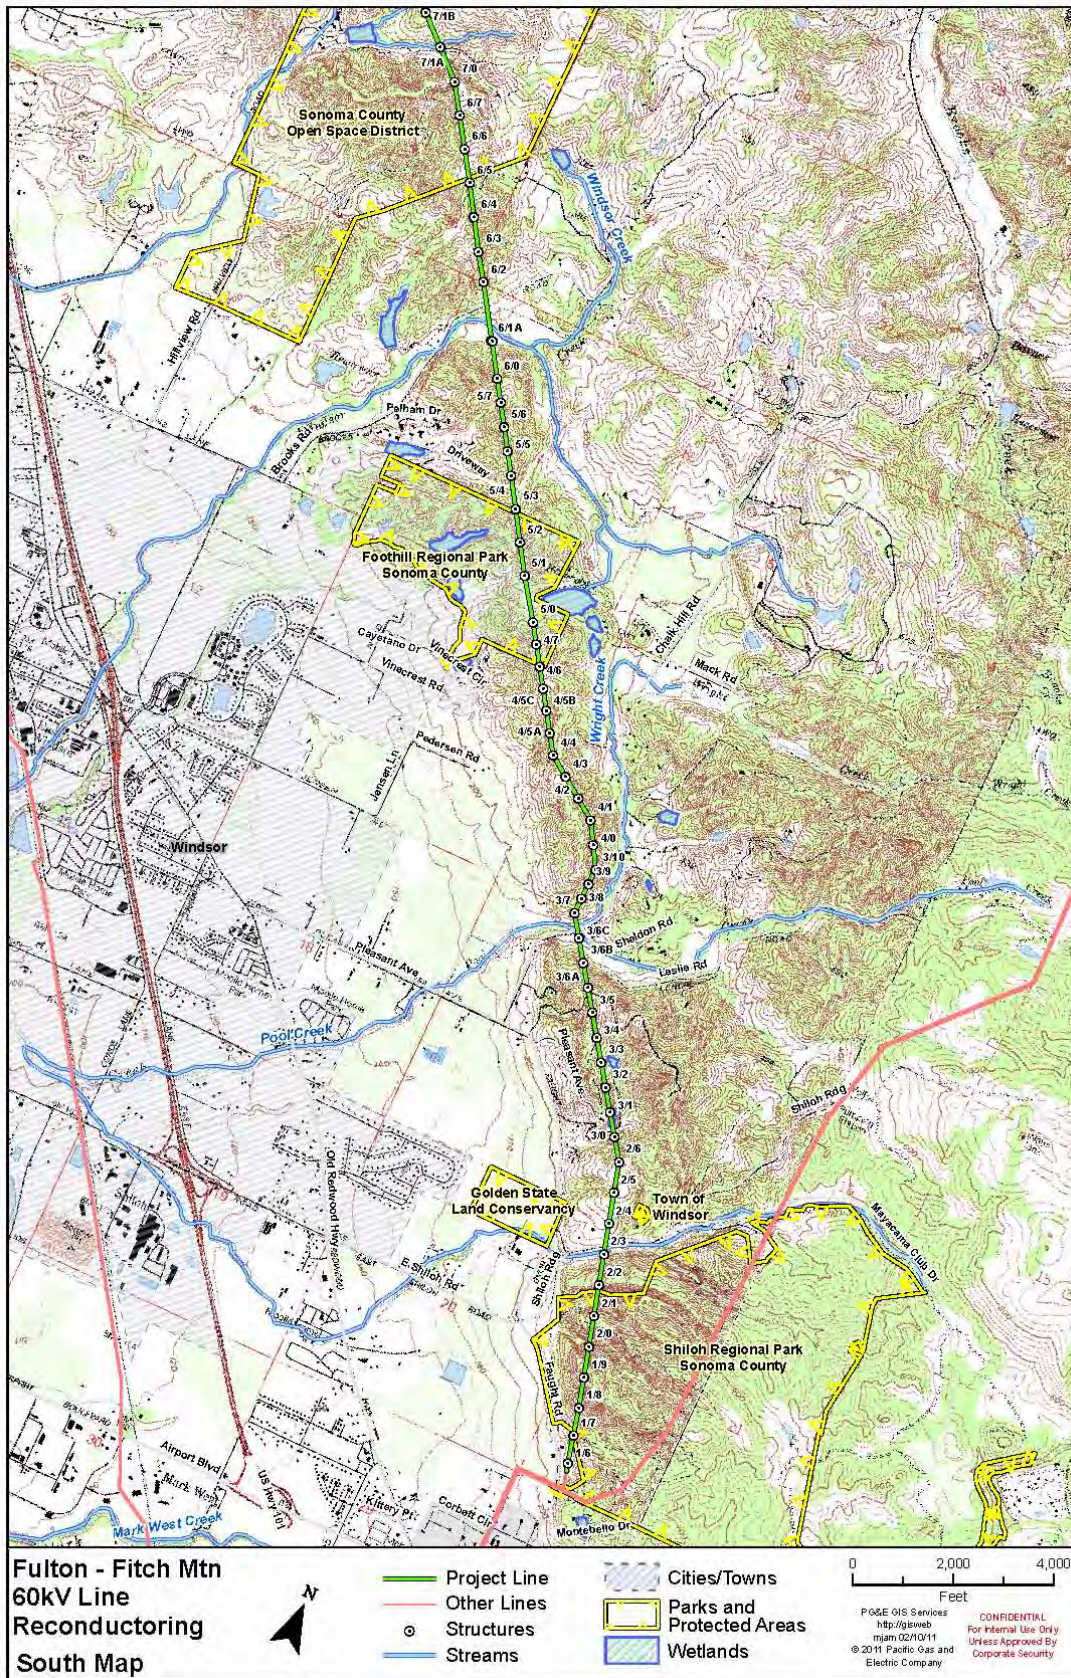

Sincerely,

Alex DeGeorgey, M.A., RPA

RE: PG&E Reconductoring Project

Dear Alex:

The Federated Indians of Graton Rancheria, a federally recognized Tribe and sovereign government has received your correspondence regarding the proposed PG&E Reconductoring Project in Sonoma County, CA. We appreciate the notification of this potential project.

We have reviewed the material you have provided and based on our recent conversation, the Tribe does not believe this project will adversely impact our cultural resources.

Respectfully,

Nick Tipon
Sacred Sites Protection Committee

This email is in follow up to informal consultation conducted with the *Dry Creek Rancheria of Pomo Indians* regarding the *PG&E Fulton Fitch Mountain 60kv Reconductoring Project in Sonoma County* (see Attachment "Original Project Maps").

Consultation with Native American contacts was initiated by Alex DeGeorgey of North Coast Resource Management, on behalf of PG&E on June 10, 2011 (see Attachment "Letter to NA Contacts 6.10.11"), after receiving a list of contacts from the NAHC and notification from the NAHC that a Sacred Power Site (see Attachment "NAHC Response 6.10.11") was indicated on their Healdsburg 7.5 minute quadrangle in Township 9 North, Range 9 West, in Section 36.

On June 29, 2011, Mr. DeGeorgey sent follow-up emails to those contacts with email addresses (which excluded Suki Waters) and placed a phone call to Nick Tipon of the *Federated Indians of Graton Rancheria*. Mr. DeGeorgey received a letter response from Nick Tipon representing the Graton Rancheria dated July 18, 2011 (see Attachment "Fed Graton Response 7.8.11") indicating the Tribe did not believe the project would adversely impact their cultural resources.

No other responses were received from Native American contacts as a result of Mr. DeGeorgey's communications.

PG&E is extending the length of the proposed project by 1.6 miles (see Attachment "Records Search Map Fulton Fitch") and through this communication would like to confirm that the Native American contacts have no knowledge of cultural resources that could be adversely impacted by this project. Please contact me if you have any questions, need additional information, or have information regarding potential impacts to cultural resources as a result of this proposed project. I will be contacting Suki Waters via telephone.

Thank you for your time.

Re: Proposed PG&E Fulton Fitch Mountain 60kv Reconductoring Project in Sonoma County

Dear Mr. Hopkins:

This letter is in follow up to informal consultation conducted with the *Dry Creek Rancheria of Pomo Indians* regarding the *PG&E Fulton Fitch Mountain 60kv Reconductoring Project in Sonoma County* (see Attachment 1).

Consultation with Native American contacts was initiated by Alex DeGeorgey of North Coast Resource Management, on behalf of PG&E on June 10, 2011 (see Attachment 2), after receiving a list of contacts from the NAHC and notification from the NAHC that a Sacred Power Site (see Attachment 3) was indicated on their Healdsburg 7.5 minute quadrangle in Township 9 North, Range 9 West, in Section 36.

On June 29, 2011, Mr. DeGeorgey sent follow-up emails to those contacts with email addresses (which excluded Suki Waters) and placed a phone call to Nick Tipon of the *Federated Indians of Graton Rancheria*. Mr. DeGeorgey received a letter response from Nick Tipon representing the Graton Rancheria dated July 18, 2011 (see Attachment 4) indicating the Tribe did not believe the project would adversely impact their cultural resources. No other responses were received from Native American contacts as a result of Mr. DeGeorgey's communications.

PG&E is extending the length of the proposed project by 1.6 miles (see Attachment 5) and through this communication would like to confirm that the Native American contacts have no knowledge of cultural resources that could be adversely impacted by this project. Please contact me if you have any questions, need additional information, or have information regarding potential impacts to cultural resources as a result of this proposed project.

Sincerely,

Trish Fernandez, M.A., R.P.A.

This email is in follow up to informal consultation conducted with the *Lytton Rancheria of California* regarding the **PG&E Fulton Fitch Mountain 60kv Reconductoring Project in Sonoma County** (see Attachment "Original Project Maps").

Consultation with Native American contacts was initiated by Alex DeGeorgey of North Coast Resource Management, on behalf of PG&E on June 10, 2011 (see Attachment "Letter to NA Contacts 6.10.11"), after receiving a list of contacts from the NAHC and notification from the NAHC that a Sacred Power Site (see Attachment "NAHC Response 6.10.11") was indicated on their Healdsburg 7.5 minute quadrangle in Township 9 North, Range 9 West, in Section 36.

On June 29, 2011, Mr. DeGeorgey sent follow-up emails to those contacts with email addresses (which excluded Suki Waters) and placed a phone call to Nick Tipon of the *Federated Indians of Graton Rancheria*. Mr. DeGeorgey received a letter response from Nick Tipon representing the Graton Rancheria dated July 18, 2011 (see Attachment "Fed Graton Response 7.8.11") indicating the Tribe did not believe the project would adversely impact their cultural resources.

No other responses were received from Native American contacts as a result of Mr. DeGeorgey's communications.

PG&E is extending the length of the proposed project by 1.6 miles (see Attachment "Records Search Map Fulton Fitch") and through this communication would like to confirm that the Native American contacts have no knowledge of cultural resources that could be adversely impacted by this project. Please contact me if you have any questions, need additional information, or have information regarding potential impacts to cultural resources as a result of this proposed project. I will be contacting Suki Waters via telephone.

Thank you for your time.

From: Kim Tremaine ktremaine@tremaine.us 
Subject: PG&E Fulton Fitch Project & Native American Consultation
Date: September 24, 2015 at 12:35 PM
To: Gene Buvelot gbuvelot@gratonrancheria.com

This email is in follow up to consultation conducted with the Federated Indians of Graton Rancheria regarding the PG&E Fulton Fitch Mountain 60v Reconductoring Project in Sonoma County. Consultation with Native American contacts was initiated by Alex DeGeorgey of North Coast Resource Management on behalf of PG&E on Jun 10, 2011 through letters, emails, and phone calls. Follow up outreach was made by Trish Fernandez of Tremaine & Associates on behalf of PG&E on November 20, 2012.

To summarize, the project as planned, includes reconductoring approximately 10 miles of electric utility line between Fulton and Healdsburg, pole replacement, and minor alterations of Fulton Substation (see attached map). The operation and maintenance activities required for the upgraded transmission line will not increase.

Findings of Cultural Resources Investigation:

A records search at the Northwest Information Center identified a single prehistoric archaeological site, CA-SON-1256, within the project area. It is not situated anywhere near the power poles or any other work areas. Nevertheless, avoidance measures are proposed to ensure its protection through temporary fencing.

Archaeological surveys resulted in the identification of one additional very sparse scattering of secondarily deposited prehistoric debitage and 2 prehistoric isolates (a chert flake and obsidian project point). Our report will indicate that no impacts to these resources will occur.

In the unlikely event of a discovery during construction, PG&E is proposing to stop work within 100 feet of the find until a qualified archaeologist can assess the significance of the find. Appropriate treatment measures are to be developed if warranted, in consultation with other appropriate entities including Native American groups.

We are contacting you to ask if you know of any cultural resources in or adjacent to the project area, or issues that you would like us to consider. Please contact me at your earliest convenience at 707-333-5288 or by email (ktremaine@tremaine.us). If we do not hear from you by October 24, 2015, we will assume that you have no concerns to communicate.

Thank you for your time.

Sincerely,

Kim Tremaine, Ph.C., RPA

RE: California Environmental Quality Act Public Resources Code section 21080.3,
Subd. (b) Request for Formal Notification of Proposed Projects Within the
Federated Indians of Graton Rancheria Tribe's Geographic Area of Traditional and
Cultural Affiliation

Dear Agency Representative:

As of the date of this letter, in accordance with Public Resources Code Section 21080.3.1, subd. (b), the Federated Indians of Graton Rancheria, which is traditionally and culturally affiliated with a geographic area within your agency's geographic area of jurisdiction, requests formal notice of and information on proposed projects for which your agency will serve as a lead agency under the California Environmental Quality Act (CEQA), Public Resources Code section 21000 et seq.

Pursuant to Public Resources Code section 21080.3.1, subd. (b), and until further notice, we hereby designate the following person as the tribe's lead contact person for purposes of receiving notices of proposed projects from your agency:

Name: Buffy McQuillen
Title: Tribal Heritage Preservation Office (THPO)/Native American Graves
Protection and Repatriation Act (NAGPRA)
Address: 6400 Redwood Drive, Suite 300
Phone Number: (707) 566-2288 ext. 137
Fax Number: (707) 566-2291
Email Address: bmcquillen@gratonrancheria.com

We request that all notices be sent via certified U.S. Mail with return receipt. Following receipt and review of the information your agency provides, within the 30-day period proscribed by Public Resources Code section 21080.3.1, subd. (d), the Federated Indians of Graton Rancheria may request consultation, as defined by Public Resources Code section 21080.3.1, subd. (b), pursuant to Public Resources Code section 21080.3.2 to mitigate any project impacts a specific project may cause to tribal cultural resources.

If you have any questions or need additional information, please contact our lead contact person listed above.

Respectfully Submitted,

Greg Sarris
FIGR Chairman

Hi Buffy. I have attached a map showing plot of CA-Son-1256 relative to the project area. Ground disturbances will not occur anywhere near this site. I will pass on your comments regarding tribal cultural monitoring.

Kim

On Oct 21, 2015, at 11:38 AM, Buffy McQuillen
<BMcQuillen@gratonrancheria.com> wrote:

Hello Kim,

Is SON-1256 plotted on a project area map? General practice for the Tribe to ensure maximum protection of any cultural resources is having a tribal cultural monitor on site for ground disturbing activities. Fencing is not the most effective tool given that the resources appear to be redistributed in the area, probably from similar projects done without regard.
