

DATA NEEDS #4 FOR PETITION FOR MODIFICATION #1

**PG&E FULTON-FITCH MOUNTAIN RECONDUCTORING PROJECT – A.15-12-005;
D.17-12-012**

Table 1 Data Needs #4 for Petition for Modification #1

ID	Applicable References	Issue	Data Need
Environmental Analysis			
EA-01	Supplemental PEA: 3.0 Environmental Analysis	<p>Updated CEQA Guidelines</p> <p>New CEQA guidelines went into effect on December 28, 2018¹. The Appendix G impact questions were revised for several topics and new topic sections were added for Energy and Wildfire considerations.</p> <p>As discussed during the conference call with the CPUC on January 16, 2019, PG&E has agreed to provide supplemental information that addresses the updated Guidelines and Appendix G questions. The analysis will be similar to the analysis in the Supplemental PEA but will address the current CEQA guidelines or state that the Supplemental PEA remains accurate.</p>	<p>a. Provide additional PEA-type analysis for the updated CEQA Guidelines. Review the Appendix G questions that have changed and state if the PEA analysis remains accurate or provide additional analysis for the PFM that addresses the changes.</p> <p>b. At a minimum, provide a complete analysis for each question in Appendix G for Energy, Transportation, Utilities and Service Systems, and Wildfire.</p>
