**DECLARATION OF MAILING OF SUPPLEMENTAL NOTICE OF AN APPLICATION FOR A PERMIT TO CONSTRUCT (A. 12-01-012)**

I, Brandon Liddell, declare that I am over the age of 18 years and not a party to this action. I am an employee of Pacific Gas and Electric Company, and my business address is 245 Market Street, San Francisco, California, 94105. I am making this declaration based on my personal knowledge and, if called as a witness, I could competently testify under oath to the matters described herein.

Initial mailing of a Notice of Application For a Permit to Construct in A.12-01-012, dated February 3, 2012, failed to provide notice to all landowners required to receive such notice. On March 8, 2012, I caused to be delivered a complete copy of the

**SUPPLEMENTAL NOTICE OF AN APPLICATION FOR A PERMIT TO CONSTRUCT, attached hereto as Exhibit A,**

**and cover letter, attached hereto as Exhibit B,**

**(BY MAIL)** I caused each such envelope containing the within SUPPLEMENTAL NOTICE, with postage thereon fully prepaid, to be placed in the United States mail at San Francisco, California, addressed to the following persons:

**Please see the Revised Mailing List attached as Exhibit C.**

I further declare that on March 8, 2012, I caused to be delivered a complete copy of the

**SUPPLEMENTAL NOTICE OF AN APPLICATION FOR A PERMIT TO CONSTRUCT (Exhibit A)**

**and individually-addressed cover letters, in the form shown in the copy which is attached hereto as Exhibit D,**

**(BY MAIL)** I caused each such envelope containing the within SUPPLEMENTAL NOTICE, with postage thereon fully prepaid, to be placed in the United States mail at San Francisco, California, addressed to the following persons:

**Please see the Mailing List attached as Exhibit E.**

I declare under penalty of perjury under the laws of the State of California that the foregoing is true and correct. Executed this 9th day of March 2012, at San Francisco, California.

### SUPPLEMENTAL NOTICE OF AN APPLICATION- FOR A PERMIT TO CONSTRUCT

**PROJECT NAME: SANTA CRUZ 115 KV REINFORCEMENT PROJECT**  
**APPLICATION NUMBER: A.12-01-012**

**Proposed Project:** In order to improve transmission system reliability and ensure safe and reliable electric service to Santa Cruz County area residents, PG&E is proposing to add a new, approximately 8.8-mile, 115 kV power line between Green Valley Substation and Rob Roy Substation. To support the new power line, new equipment will be installed in an expanded substation yard at Rob Roy Substation located on Freedom Boulevard, 0.6 miles northeast of State Highway 1 in Santa Cruz County. The new power line includes two segments: (1) the Northern Alignment would rebuild approximately 7.1 miles of the existing single-circuit Green Valley-Camp Evers 115kV Power Line into a double-circuit power line; and (2) the Cox-Freedom Segment would rebuild approximately 1.7 miles of existing distribution line into a combined single-circuit 115kV line and a distribution line. The Northern Alignment portion of the power line will begin at Green Valley Substation located north of the City of Watsonville on Minto Road, approximately 0.3 miles east of Green Valley Road. The new line will extend approximately 0.9 miles north and then approximately 0.8 miles west along Dalton Road, crossing Green Valley Road and Pinto Lake County Park. The proposed new power line will leave Pinto Lake County Park heading northwest for approximately 1.9 miles, crossing Kiewer Road, Pioneer Road, and Pioneer View Road to Amesti Road, then west approximately 0.4 miles, crossing Corralitos Creek and Corralitos Road. Approximately 0.2 miles west of Corralitos Road, the line will extend northwest approximately 1.2 miles, crossing Hames Hollow Road and Hames Road, then west for approximately 1.7 miles, crossing Quail Run, Jingle Lane, Potter Road, Meadow Road and Pine Forest Drive to the end of the Northern Alignment segment on the west side of Cox Road. From there, the Cox-Freedom Segment will turn south approximately 0.4 miles along Cox Road to Day Valley Road and to McDonald Road, then southwest approximately 0.6 miles along McDonald Road to Freedom Boulevard, where it will turn southwest for approximately 0.7 miles to Rob Roy substation. To support the new power line, approximately 79 tubular steel poles with concrete foundations will replace existing wood power poles, and approximately 21 wood power poles will replace existing distribution poles. The existing Rob Roy Substation fence line will be expanded approximately 50 feet along the north and east sides on PG&E property to accommodate new equipment. Existing poles will be replaced to reconnect the existing Rob Roy-Paul Sweet 115 kV Power Line and the existing Green Valley-Rob Roy 115 kV Power Line to the modified substation.

To complete this project, PG&E has applied to the California Public Utilities Commission (CPUC) for a Permit To Construct (PTC). Construction is planned to start in the spring of 2013, or as soon as possible after permitting is completed, and is planned to be completed by December of 2013, or as soon thereafter as possible. PG&E is issuing this Supplemental Notice of Application because its original Notice of Application, published and posted on February 3, 2012, failed to provide notice to all landowners required to receive such notice.

**Electric and Magnetic Fields (EMF):** Pacific Gas and Electric Company will employ "no cost" and specified "low cost" measures to reduce public exposure to EMF in accordance with California Public Utilities Commission (CPUC) Decision 06-01-042 and Pacific Gas and Electric Company's "EMF Design Guidelines for Electrical Facilities." The following measures are proposed for this project:

- The phases of the new Green Valley-Rob Roy 115 kV line and the existing Green Valley-Camp Evers 115 kV line will be arranged for minimum magnetic field level at the edge of the right of way.
- The height of the 62 poles in school and residential land use areas will be raised so that they are five feet taller than otherwise required.
- At Rob Roy Substation, high current devices, transformers, and reactors will be kept away from the substation property lines.
- For underground duct banks, the minimum distance will be 12 feet from the adjacent property lines or as close to 12 feet as practical.

**Application for CPUC Authorization:** Pursuant to CPUC General Order 131-D, Section III.B, no electric utility shall begin construction of certain facilities without first receiving authorization (Permit to Construct) from the CPUC.

**Public Review Process:** Persons or groups may protest the granting in whole or in part of the authority sought in the proposed Project and request that the CPUC hold hearings on the application.

**An original and seven (7) exact copies of each protest, response or request for hearing on this project must be filed with the CPUC by no later than April 9, 2012, at the following address:**

California Public Utilities Commission  
Docket Office  
505 Van Ness Avenue, Room 2001  
San Francisco, California 94102

Matthew Fogelson, Law Department  
Pacific Gas and Electric Company  
P.O. Box 7442, B-30A  
San Francisco, California 94120

Protests, responses and/or requests for hearing must comply with Article 2 and Rule 2.6 of the CPUC's Rules of Practice and Procedure, and should include the following:

1. Your name, mailing address and daytime telephone number;
2. Reference to the CPUC Application Number and Project Name;
3. The facts constituting the grounds for the protest, the effect of the application on you as a protestant, the reasons you believe part or all of the application is not justified, and, if requesting an evidentiary hearing, the facts you would present at an evidentiary hearing to support a request for whole or partial denial of the application. (See Rule 2.6 of the CPUC's Rules of Practice and Procedure, which can be accessed electronically at [www.cpuc.ca.gov](http://www.cpuc.ca.gov) under the link to the Public Advisor's Office.)

If the CPUC, as a result of its preliminary investigation after such requests, determines that public hearings should be held, the CPUC will notify you of the time and place of the requested hearing. The CPUC is authorized to act on the permit application without hearings if there are no protests or requests for hearings or if the CPUC determines that no protest or request for a hearing has been filed that raises issues requiring a hearing.

**Assistance in Filing a Protest or Requesting a Hearing:** For assistance in filing a protest or requesting a hearing, contact the CPUC Public Advisor in San Francisco at (415) 703-2074 or 1-866-849-8390 (toll-free) or TTY (415) 703.5258 or [public.advisor@cpuc.ca.gov](mailto:public.advisor@cpuc.ca.gov).

**Additional Project Information:** To obtain additional information on the proposed project, including information on how and where you can review the Application, please call PG&E's Project Information Line at (415) 973-5530.

**RE: Santa Cruz 115 kV Reinforcement Project**

Dear PG&E Customer:

Enclosed is a Supplemental Notice of an Application for a Permit to Construct the Pacific Gas and Electric Company (PG&E) Santa Cruz 115 kV Reinforcement Project, which is needed to improve transmission system reliability and ensure safe and reliable electric service to Santa Cruz County area residents. PG&E is issuing this Supplemental Notice of Application because its original Notice of Application, mailed by letter dated February 3, 2012, failed to provide notice to all landowners required to receive such notice. The supplemental notice contains information about the project as required by the California Public Utilities Commission (CPUC).

The CPUC requires that PG&E give this notice to all owners of property within 300 feet of the proposed project. Please carefully review the attached notice for a description of the project.

The *Supplemental Notice of an Application for a Permit to Construct* will also be published in the Santa Cruz Sentinel and posted in the project area. In addition, a copy of the Application is available for viewing at the following locations:

Agency Title Block

**RE: Supplemental Notice of an Application for Authorization from the California Public Utilities Commission to Construct the Santa Cruz 115 kV Reinforcement Project**

Dear Agency Representative's Name:

On January 25, 2010 Pacific Gas and Electric Company (PG&E) submitted an application to the California Public Utilities Commission (CPUC) for authorization to construct the Santa Cruz 115 kV Reinforcement Project to improve transmission system reliability and ensure safe and reliable electric service to Santa Cruz County area residents. The CPUC, as the lead agency under the California Environmental Quality Act, has exclusive discretionary permitting jurisdiction over the design and construction of the electric facilities required as part of this project. The project is summarized in the enclosed Supplemental Notice of Application for a Permit to Construct. PG&E is issuing this Supplemental Notice of Application because its original Notice of Application, mailed by letter dated February 1, 2012, failed to provide notice to all landowners required to receive such notice. I have also enclosed a map showing the project location.

This letter and its enclosures serve to provide you with notice of the project as required under Section XI, Paragraph A, Section 1 of the CPUC's General Order 131-D. The Supplemental Notice of Application for a Permit to Construct will be published in the Santa Cruz Sentinel and will also be posted in the project area. In addition, a copy of the Application is available for viewing at the following locations:

**SUPPLEMENTAL NOTICE OF AN APPLICATION FOR A PERMIT TO CONSTRUCT**

**PROJECT NAME: SANTA CRUZ 115 KV REINFORCEMENT PROJECT**  
**APPLICATION NUMBER: A.12-01-012**

**Proposed Project:** In order to improve transmission system reliability and ensure safe and reliable electric service to Santa Cruz County area residents, PG&E is proposing to add a new, approximately 8.8-mile, 115 kV power line between Green Valley Substation and Rob Roy Substation. To support the new power line, new equipment will be installed in an expanded substation yard at Rob Roy Substation located on Freedom Boulevard, 0.6 miles northeast of State Highway 1 in Santa Cruz County. The new power line includes two segments: (1) the Northern Alignment would rebuild approximately 7.1 miles of the existing single-circuit Green Valley-Camp Evers 115kV Power Line into a double-circuit power line; and (2) the Cox-Freedom Segment would rebuild approximately 1.7 miles of existing distribution line into a combined single-circuit 115kV line and a distribution line. The Northern Alignment portion of the power line will begin at Green Valley Substation located north of the City of Watsonville on Minto Road, approximately 0.3 miles east of Green Valley Road. The new line will extend approximately 0.9 miles north and then approximately 0.8 miles west along Dalton Road, crossing Green Valley Road and Pinto Lake County Park. The proposed new power line will leave Pinto Lake County Park heading northwest for approximately 1.9 miles, crossing Kiewer Road, Pioneer Road, and Pioneer View Road to Arnesti Road, then west approximately 0.4 miles, crossing Corralitos Creek and Corralitos Road. Approximately 0.2 miles west of Corralitos Road, the line will extend northwest approximately 1.2 miles, crossing Hames Hollow Road and Hames Road, then west for approximately 1.7 miles, crossing Quail Run, Jingle Lane, Potter Road, Meadow Road and Pine Forest Drive to the end of the Northern Alignment segment on the west side of Cox Road. From there, the Cox-Freedom Segment will turn south approximately 0.4 miles along Cox Road to Day Valley Road and to McDonald Road, then southwest approximately 0.6 miles along McDonald Road to Freedom Boulevard, where it will turn southwest for approximately 0.7 miles to Rob Roy substation. To support the new power line, approximately 79 tubular steel poles with concrete foundations will replace existing wood power poles, and approximately 21 wood power poles will replace existing distribution poles. The existing Rob Roy Substation fence line will be expanded approximately 50 feet along the north and east sides on PG&E property to accommodate new equipment. Existing poles will be replaced to reconnect the existing Rob Roy-Paul Sweet 115 kV Power Line and the existing Green Valley-Rob Roy 115 kV Power Line to the modified substation.

To complete this project, PG&E has applied to the California Public Utilities Commission (CPUC) for a Permit To Construct (PTC). Construction is planned to start in the spring of 2013, or as soon as possible after permitting is completed, and is planned to be completed by December of 2013, or as soon thereafter as possible. PG&E is issuing this Supplemental Notice of Application because its original Notice of Application, published and posted on February 3, 2012, failed to provide notice to all landowners required to receive such notice.

**Electric and Magnetic Fields (EMF):** Pacific Gas and Electric Company will employ "no cost" and specified "low cost" measures to reduce public exposure to EMF in accordance with California Public Utilities Commission (CPUC) Decision D03-01-042 and Pacific Gas and Electric Company's "EMF Design Guidelines for Electrical Facilities." The following measures are proposed for this project:

- The phases of the new Green Valley-Rob Roy 115 kV line and the existing Green Valley-Camp Evers 115 kV line will be arranged for minimum magnetic field level at the edge of the right of way.
- The height of the 62 poles in school and residential land use areas will be raised so that they are five feet taller than otherwise required.
- At Rob Roy Substation, high current devices, transformers, and reactors will be kept away from the substation property lines.
- For underground duct banks, the minimum distance will be 12 feet from the adjacent property lines or as close to 12 feet as practical.

**Application for CPUC Authorization:** Pursuant to CPUC General Order 131-D, Section III.B, no electric utility shall begin construction of certain facilities without first receiving authorization (Permit to Construct) from the CPUC.

**Public Review Process:** Persons or groups may protest the granting in whole or in part of the authority sought in the proposed Project and request that the CPUC hold hearings on the application.

An original and seven (7) exact copies of each protest, response or request for hearing on this project must be filed with the CPUC by no later than April 9, 2012, at the following address:

California Public Utilities Commission  
Docket Office  
505 Van Ness Avenue, Room 2001  
San Francisco, California 94102

**With a copy served by either First Class Mail or Hand-Delivery to:**

Matthew Fogelson, Law Department  
Pacific Gas and Electric Company  
P.O. Box 7442, B-30A  
San Francisco, California 94120

Protests, responses and/or requests for hearing must comply with Article 2 and Rule 2.6 of the CPUC's Rules of Practice and Procedure, and should include the following:

1. Your name, mailing address and daytime telephone number;
2. Reference to the CPUC Application Number and Project Name;
3. The facts constituting the grounds for the protest, the effect of the application on you as a protestant, the reasons you believe part or all of the application is not justified, and, if requesting an evidentiary hearing, the facts you would present at an evidentiary hearing to support a request for whole or partial denial of the application. (See Rule 2.6 of the CPUC's Rules of Practice and Procedure, which can be accessed electronically at [www.cpuc.ca.gov](http://www.cpuc.ca.gov) under the link to the Public Advisor's Office.)

If the CPUC, as a result of its preliminary investigation after such requests, determines that public hearings should be held, the CPUC will notify you of the time and place of the requested hearing. The CPUC is authorized to act on the permit application without hearings if there are no protests or requests for hearings or if the CPUC determines that no protest or request for a hearing has been filed that raises issues requiring a hearing.

**Assistance in Filing a Protest or Requesting a Hearing:** For assistance in filing a protest or requesting a hearing, contact the CPUC Public Advisor in San Francisco at (415) 703-2074 or 1-866-649-8390 (toll-free) or TTY (415) 703.6258 or [public.advisor@cpuc.ca.gov](mailto:public.advisor@cpuc.ca.gov).

**Additional Project Information:** To obtain additional information on the proposed project, including information on how and where you can review the Application, please call PG&E's [Project Information Line](#) at (415) 973-5530.
