To Whom It May Concern:

As a resident of Park Village in Rancho Penasquitos, I am in strong disagreement with a power line running anywhere near the Park Village area. I have grave concerns about traffic and the health of the residents. As you may be aware, there are numerous studies linking power lines and cancer among children. The traffic in and out of Park Village would be catastrophic. I will definitely participate in a lawsuit to halt the building of this power line if the decision is made to proceed.

Regards,

Joseph and Allison Nebel
