

ED11-SDGE 04/14/15 Partial Response
A.14-04-011 SXPQ 230kV Transmission Line CPCN Project
Energy Division Data Request 11 Dated April 14, 2015
ED11-SDGE Question 1

Q#	Summary of SDG&E Response Submittals	Confidential	PENDING Status
1-2	04/14/15 – Submittal 1: Q1	None.	Pending: Q2

REPORT OVERVIEW

The California Public Utilities Commission (CPUC) has identified several areas where more information is needed to prepare a complete and adequate analysis of the potential environmental effects of a range of alternatives in accordance with the requirements of the California Environmental Quality Act (CEQA). Data needs are identified in bold. Clarifying information is provided below the data need.

Table 1: Application No. 14-04-011 Data Needs #11

#	Reference Source, Page #	Data Need	SDG&E Response
1	Data Request #8, Response #3	Provide Attachment ED08 – Q3(b) which was not included in SDG&E’s partial response submittals dated March 25, 2015 and March 27, 2015. This attachment contains details for the new cable pole structures that would be utilized for the Alternative being considered by the CPUC.	Attachment ED08 – Q3(b)_Cable Pole Detail Table, is attached to this response.  ED11-SDGE Q1 Attachment 04-15-15.
2	Data Request #9, Response #3	Provide a list of all rare plant species and identify project locations for which rare plant surveys are ongoing and where the results of which will not be available to the CPUC by April 30, 2015. For any project area where the results of rare plant surveys are not provided by April 30 th , the CPUC will need to presume presence of the individual plant species and require impact avoidance as mitigation in order to meet the schedule for release of the Draft EIR. Alternatively, if desired by SDG&E, the release date of the draft EIR can be delayed until project planning surveys are completed.	Pending
