District 5	Council Member	Mark	Kersey	City of San Diego	X	X	X	<p>Lee Friedman on Tues, 5/27/14. CM Kersey had some questions. Todd will be following up with the answers once we confirm which companies' wires are on our existing structures. See Q&A.</p> <p>1) Q: Will we reuse or recycle the old wires and/or poles? A: We told them we would look into this, but generally SDG&E can dispose of poles that are not necessary and useful property as a gift or sale as salvage subject to an executed waiver of liability from the recipient.</p> <p>2) Q: Can we lay dark fiber along the project, both overhead and underground, for others to use and/or lease in the future? A: SDG&E cannot install dark fiber along the project for use by others as it would violate the ROW agreements and PUC section 851.</p> <p>3) Q: Can we coordinate with AT&T and COX so we can move their wires at the same time we installing new structures? A: Pursuant to CEQA and GO 131-D SDG&E cannot install or move any facilities not proposed in the CPCN and approved by the CPUC. The CIPs (including AT&T and COX) are responsible for reconfiguring their facilities in coordination with SDG&E as necessary. (The rest of this answer will be based on what the engineers confirm</p>	Met with Mark, Gina and Lee on Tues, 5/27/14	Council Member Kersey sent letter acknowledging SDG&E meeting and requesting to be kept informed about the project.
