Re: Construction of SX to PQ Electric Transmission Line, Temporary Construction Yard

Brian,

POWAY-STOWE PROPERTIES LLC, is the owner of record (the "Owner") of a vacant lot of approximately five acres, parcel APN 317-280-68, located on Crosthwaite Circle, Poway, San Diego County. We, the property owners of the above referenced property grant SDG&E permission to include this land in its application for a project before the California Public Utilities Commission (PUC). SDG&E's proposed use of the land is for a temporary staging site for the project. SDG&E will conduct a non-invasive environmental review of the site for its application with the PUC. Once the project is approved by the PUC and provided the referenced land is still vacant and available, SDG&E and the undersigned may enter into negotiations for the use of the site. There is no commitment on the part of the undersigned to hold the site for SDG&E's use or to reach an agreement for its use at the time SDG&E would like to use it.

Sincerely,

Kenneth Kerper, Member and Pamela Cooke Member
