<b>Project Description</b>			
11	N/A	<p><b>Provide a cumulative projects list of all SDG&amp;E and Southern California Gas projects located within 10 miles of the project alignment including the following information:</b></p> <ol style="list-style-type: none"> <li>1. Summary description of each project</li> <li>2. Scheduled timeframe implementation of each project</li> <li>3. GIS files for each project location and/or alignment.</li> </ol>	<p>Pursuant to SDG&amp;E’s conference call on January 20<sup>th</sup> with the Energy Division and Panorama staff, the cumulative project list has been prepared based on a one-mile radius around all project related features (the project alignment and all non-contiguous work areas and staging yards) instead of a 10-mile radius of the project alignment, as stated in Data Request #5. Projects included in the cumulative project list are those SDG&amp;E projects subject to the California Environmental Quality Act (CEQA). Routine activities, maintenance projects and other projects that are not subject to CEQA were not included. A table identifying the SDG&amp;E cumulative projects, as described above, including a description of the project and an implementation schedule is provided in Attachment ED05-Q11(a). The shape files for the one-mile radii around each of the project features and for the projects included in the SDG&amp;E cumulative project list are provided in Attachment ED05-Q11(b)_<b>CONFIDENTIAL</b>.</p> <p>To the best of our knowledge and information after appropriate research and inquiry, Attachments ED05-Q11(a) and (b) include all the SDG&amp;E projects to be considered for cumulative impact purposes. Please note, SDG&amp;E does not have the information or authority to provide this information on behalf of SoCalGas or any other entity.</p>
