

1 **5.2 AGRICULTURAL RESOURCES**

2 The project would be located in existing railroad and public roadway rights-of-way, and would
3 not involve any known agricultural resources. Implementation of the project would have no
4 direct, indirect, or cumulative effect on agricultural resources, including conversion of farmland to
5 other uses, conflict with agricultural zoning or contracts, or involvement with other changes that
6 could result in conversion of farmland to other uses. Accordingly, no discussion of the setting for
7 agricultural resources is necessary.
