Gas Transmission System Class Location Oil
Data Response**

PG&E Data Request No.:	CPSD_008-02-S1-Supp01		
PG&E File Name:	GTSCClassLocationOil_DR_CPSD_008-02-S1-Supp01		
Request Date:	February 24, 2012/ April 10, 2012	Requester DR No.:	
Date Sent:	May 4, 2012	Requesting Party:	CPUC (CPSD)
		Requester:	██████████

PLEASE NOTE THAT PGE'S RESPONSE TO THIS SUPPLEMENT BEGINS ON PAGE 8 OF THIS DOCUMENT. THE PREVIOUS RESPONSE IS INCLUDE ON PAGES 1-7 FOR REFERENCE.

Please provide any and all patrolling records, including but not limited to:

- a. F4111-A
- b. F4127 (including GSM&TS Mapping updates when applicable)
- c. Aerial Patrol Reports
- d. Form 62-4648 (when applicable)
- e. Form 11-038 (when applicable)

For all of pipeline segments listed in the following table covering the specified date range:

ANSWER 2 (SUBMITTED TO CPSD ON APRIL 4, 2012)

Please note the attachments to this response contain sensitive personal information pertaining to PG&E employees and contractors, including names. For this reason, and only for this reason, PG&E is providing this response pursuant to Public Utilities Code section 583. The dissemination of PG&E employee and contractor information contained in this response raises privacy concerns. Therefore, PG&E believes that such information should remain confidential and not be subject to public disclosure.

PG&E continues to search for documents responsive to this request, which seeks patrol records for identified segments over a 42-year period in which operations, patrol forms, and pipeline designations have expectedly changed.

Attached are copies of available patrol records for 56 of the requested pipeline segments and date ranges (*GTSCClassLocationOII_DR_CPSD_008-02Atch01a – Atch48d*). PG&E continues to search for and review additional patrolling records that may be responsive to this request, and PG&E will supplement this response if it finds additional responsive records.

CPSD follow up data request dated April 10, 2012, related to CPSD_008-02.

On April 2, 2012 in PG&E's Second Update Response, PG&E provided different Year Out dates for 32 segments previously provided on January 18, 2012 (in CPUC_139-Q5Supp01Atch01), PG&E identified Year Out dates for these segments. Consequently, CPSD must now request patrol records for date ranges immediately before and after these new Year Out dates for these 32 segments. This supplemental data request should supersede CPSD's February 24, 2012 (CPSD_008, Q.2) data request for the following 32 segments:

No.	Route	Segment_no	PG&E's 1/18/2012 Response	Date Range for CPSPD's Feb 24th, 2012 DR (CPSD_008-002)	PG&E's 4/2/2012 Response	Date Range for CPSPD's 4-9-12 follow up request to (CPSD_008-002)

Answer to CPSPD follow up data request dated April 10, 2012 (Submitted to CPSPD on April 19, 2012).

Please note the attachments to this response contain sensitive personal information pertaining to PG&E employees and contractors, including names. For this reason, and only for this reason, PG&E is providing this response pursuant to Public Utilities Code section 583. The dissemination of PG&E employee and contractor information contained in this response raises privacy

concerns. Therefore, PG&E believes that such information should remain confidential and not be subject to public disclosure.

PG&E continues to search for documents responsive to this request, which seeks patrol records for identified segments over an approximately 40-year period in which operations, patrol forms, and pipeline designations have expectedly changed.

Attached are copies of available patrol records for 11 of the requested pipeline segments and date ranges (*GTSClassLocationOII_DR_CPSD_008-002-S1Atch01-CONF – Atch11-CONF*). PG&E continues to search for and review additional patrolling records that may be responsive to this request, and PG&E will supplement this response if it finds additional responsive records.

Supplement to PG&E Response Submitted to CPSD on April 19, 2012.

Please note the attachments to this response contain sensitive personal information pertaining to PG&E employees and contractors, including names. For this reason, and only for this reason, PG&E is providing this response pursuant to Public Utilities Code section 583. The dissemination of PG&E employee and contractor information contained in this response raises privacy concerns. Therefore, PG&E believes that such information should remain confidential and not be subject to public disclosure.

Attached are copies of available patrol records for an additional 6 of the requested pipeline segments and date ranges (*GTSClassLocationOII_DR_CPSD_008-002-S1-Supp01Atch01-CONF – Atch06-CONF*).

At this time, PG&E has exhausted its search for documents responsive to this request, which seeks patrol records for identified segments over an approximately 40-year period in which operations, patrol forms, and pipeline designations have expectedly changed. Due to such changes over time, it is not possible in all cases to confirm with certainty that particular patrol records are responsive to a given request. Despite this, PG&E has attempted to provide CPSD with as much potentially-responsive material as possible. In order to provide these and all previously-provided patrol records, PG&E has expended extensive resources and exercised its best judgment based on available information.
