BY THE COMMISSION.

O R D E R

ORIGINAL STAGE LINE, INC., in this proceeding asks for a certificate of public convenience and necessity to transport express and baggage between Los Angeles and Burbank and between Burbank and San Fernando and intermediate points.

It is an amended application, the original request asking for authority to transport express and baggage between Los Angeles and San Fernando, with a maximum weight limit of 40 pounds for express packages. As amended the application fixes a weight limit of 20 pounds on express packages, and for service as outlined above. The applicant does not desire to serve intermediate points between Los Angeles and Burbank.

San Fernando Haulage Company, and American Railway Express have, in writing to the Commission, withdrawn opposition to the granting of the application, this action following the declaration of the applicant corporation that it would not carry express packages weighing in excess of twenty (20) pounds. The application, has received the endorsement of the San Fernando Chamber of Commerce and numerous merchants and professional men doing business in the territory proposed to be served have written to the Commission to the effect that the proposed service is most desirable.

In view of the fact that opposition to the granting of this amended application by competing carriers has been withdrawn and that the proposed service has received the endorsement of shippers, we believe that it should be granted and that there is no necessity for a public hearing.
