Of the accounts receivable, reported at \$1,730,657.24, approximately \$1,444,000.00 is due from subsidiary or affiliated companies, about \$964,308.00 being due from the Nevada California Electric Corporation, about \$228,824.00 from the Holton Interurban Railway Company, about \$114,238.00 from the Imperial Ice and Development Company, about \$61,129.00 from the Cain Irrigation Company and about \$74,101.00 from the Hillside Water Company.

Applicant reports accounts payable at \$3,916,273.41, of which approximately \$3,203,602.00 is payable to the Nevada California Power Company and \$370,569.00 to The Sierras Construction Company.

Applicant reports that from January 1, 1924 to August 31,1924 it expended for plant extensions, additions and betterments the sum of \$943,972.65. The expenditures are reported in some detail in applicant's Exhibit "C". The company asks permission to issue \$802,300.00 face value of bonds, which represents 85 percent. of the company's reported construction expenditures.

California Electric Corporation and will be used by that company as collateral to secure bonds issued under its first lien mortgage.

As stated, applicant asks permission to issue its bonds at 85 percent. of their face value and accrued interest. Issued at this price, the effective interest rate would be in excess of seven percent. I believe that The Southern Sierras Power Company should be able to market its bonds on a better basis than 85. The order herein will permit the company to issue the \$802,300.00 face value of bonds and sell the same for not less than 88 and accrued interest. The testimony shows that the proceeds realized from the sale of the bonds will be placed to the credit of The Southern Sierras Power Company by the Nevada California Electric Corporation and that until such time as The Southern Sierras Power Company actually withdraws the

moneys, it will receive on the proceeds, interest at the rate of eight percent. per/ This is the same rate of interest which The Southern Sierras Power Company pays for money advanced by the Nevada California Electric Corporation or any of its affiliated companies. It is of record that a substantial amount of proceeds realized from the sale of the bonds will be immediately applied to the payment of indebtedness incurred in connection with the construction of additions and betterments since January 1, 1924.

## ORDER
