SHORE, Commissioner:

<u>OPINION</u>

In this spplication Palos Verdes Transportation Company asks permission to establish service for the transportation, for hire, of passengers and freight between Redondo Beach and Palos Verdes Estates and intermediate points and to issue and sell, at par for each, 150 shares of its common capital stock of the aggregate par value of \$15,000.00 for the purpose of acquiring equipment.

A public bearing was held in this matter, at which time the application was amended so as to eliminate the request for permission to transport freight. The matter was submitted and is now ready for decision.

It appears that Palos Verdes Transportation Company was organized on or about December 9, 1924 primarily for the purpose of

At present Motor Coach Company is engaged in operating Automobile stages for the transportation of passengers within the There has been filed in this proceeding City of Redondo Beach. a stipulation duly signed by the president and secretary of applicant and of Motor Coach Company in which Motor Coach Company waives any and all grounds of protest to the granting of this application, provided that in the event the application be granted there be inserted in the order of the commission a restriction against the doing of any local business by applicant over any

portions of the routes proposed to be served in so far as such proposed routes parallel the existing lines of Motor Coach Company, that is, along Pacific Avenue, Esplanade and Redondo and Wilmington Boulevard, all within the City of Redondo Beach.

It has been reported to the Commission in/former proceeding that the Palos Verdes Estates consists of about 3200 acres, which have been divided into 6,000 lots. It appears that about sixty percent of the lots have now been sold, that about thirtyfive families are now living in the district and that an extensive building program is underway. Applicant reports that at present there are no stage or truck lines, steam railroads or electric railways operating from Redondo Beach to the district and it therefore alleges that present and future public convenience and necessity require the service it now proposes.

The company reports that in its opinion one automobile stage will be sufficient to meet the present demand for service. It therefore intends to acquire, at this time, for approximately \$5,450.00, a 1925 twenty-two passenger Reo bus, and later to add additional equipment as needed. It further proposes to use approximately \$225.00 to purchase three chauffeur"s uniforms, making a total expenditure at this time of approximately \$5,675.00.

Applicant plans to finance the cost of the equipment through the sale of its stock. It asks permission at this time to issue and sell \$15,000.00 of common capital stock at par for cash to Bank of America, Trustee of the Palos Verdes Estates, although it is not in a position to definitely advise the Commission of the purposes for which all the proceeds to be received will be expended. The order herein will therefore provide that all pro-

ceeds in excess of approximately \$5.675.00 may be expended only when and as hereafter authorized by the Commission in subsequent orders.

I herewith submit the following form of order;-
