Applicants' petition shows that the City of Glendale now owns and operates an electric distributing system which serves the inhabitants of said city with electric energy, with the exception of the inhabitants living in the territory recently annexed by said city and now served by the Southern California Edison Company through the lines which it proposes to sell to the city. The petition further shows that the city desires to extend its

its electric service to its inhabitants living within said recently annexed territory and for that reason desires to acquire the property described herein.

The Commission has considered the request of applicants and is of the opinion that no hearing is necessary on this application and that the application should be granted, therefore,

IT IS HEREBY ORDERED that Southern California Edison Company be, and it is hereby, authorized to sell on or before July 1, 1926, to the City of Glendale for the sum of \$12,346.94 the properties described in this order.

IT IS HEREBY FURTHER ORDERED that the authority herein granted shall become effective upon the date hereof.

DATED at San Francisco, California, this 10th  
day of April, 1926.
