BY THE COMMISSION -

ORDER OF DISMISSAL

F. I. Lombra has petitioned the Railroad Commission for an order declaring that public convenience and necessity require the operation by him of an automobile service for the transportation of property between ranches located within a radius of 30 miles of Colton and canneries and packing houses in Colton.

A public hearing was conducted by Examiner Williams at Riverside and the matter submitted. Under date of March 4, 1926, applicant Lombra was advised by the Railroad Commission, in writing, that inasmuch as the service proposed was not an operation within the meaning of the Auto Stage and Truck Transportation Act, namely an operation between fixed points or over a regular route or routes, the Commission, unless said application was amended by proposing a service, within the meaning of the act, would dismiss said application without prejudice.

The thirty days have elapsed, and an amendment has not been filed, therefore an Order of Dismissal, without prejudice, will be entered in the matter.

Now, therefore, good cause appearing,

IT IS HEREBY ORDERED that this application be and the same hereby is dismissed without prejudice.

Dated at San Francisco, California, this 21<sup>st</sup> day of April, 1926.
