BY THE COMMISSION -

ORDER OF DISMISSAL

George Massabian has petitioned the Railroad Commission for an order declaring that public convenience and necessity require the operation by him of an auto trucking service in an area covering a large part of the San Joaquin Valley, and between valley points and other parts of the state.

A public hearing was conducted by Examiner Justin at Fresno and the matter temporarily removed from the calendar following a decision (NO.15818) by the Railroad Commission in the matter of the application of Ben Moore for a certificate of public convenience and necessity, in which decision the Commission held that it had no certificating jurisdiction over any auto transportation

service other than a service between fixed points or over a regular route.

Theodore M. Stuart, Attorney for the applicant herein, after having been granted an extension of time to enable him to determine whether he would amend the application herein so as to propose a service between fixed points or over a regular route, requested the Railroad Commission under date of April 28, 1926, to dismiss said application without prejudice.

Now, therefore, good cause appearing,

IT IS HEREBY ORDERED that this application be and the same hereby is dismissed without prejudice.

Dated at San Francisco, California, this 5th day of

June
~~June~~ 1926.

H. B. Burdick
