## <u>order</u>

Southern Pacific Company, a corporation, filed the above entitled application with this Commission on the 13th day of April, 1927, asking for authority to construct side tracks at grade across "M" and "O" Streets in the City of Merced, County of Merced, State of California, as hereinafter set forth. While the necessary franchise or permit has not been granted by the Board of Trustees of said City for the construction of said crossings at grade at the exact locations proposed in this application, applicant has, however. filed with the Commission, in Application No. 13456, certified copy of a permit for the construction of a similar track layout serving practically the same purpose as those involved herein and states that a permit for these tracks will be filed at a later date. It appears to this Commission that the present proceeding is not one in which a public hearing is necessary; that it is neither reasonable nor practicable at this time to provide grade separations or to avoid grade crossings at the points mentioned in this application with said """ and "O" Streets and that this application should be granted subject to the conditions hereinafter specified, therefore

-1-

IT IS HEREBY ORDERED that permission and authority be and it is hereby granted to Southern Pacific Company to construct its tracks at grade across "M" and "O" Streets in the City of Merced, County of Merced, State of California, at the locations hereinafter particularly described and as shown by the map (M.W.D. Drawing 4990) attached to the application.
