SEAVEY, COMMISSIONER:

SUPPLEMENTAL OPINION AND ORDER

This Commission in its Decision No. 18,009, dated February 21, 1927, authorized certain increased schedules to be filed in lieu of the schedules then applying for mixed gas service in applicant's Western District. Applicant filed only that schedule designated as Schedule No. "A," applicable to general domestic and commercial service.

It now appears advisable to authorize applicant to file certain schedules differing slightly from those previously authorized, but not placed in effect, and which will more nearly conform to existing conditions.

Good cause therefore appearing,

IT IS HEREBY ORDERED that

1. Decision No. 18,009 be and the same is hereby

amended as follows:

That the portion of Exhibit "A," designated as Schedules No. 3-B, 3-C, 3-D and 3-E, are hereby cancelled.

2. Southern Counties Gas Company of California be and it is hereby authorized, pending final determination in this matter, to charge and collect effective for all regular meter readings taken on and after the 15th day of June, 1927, the schedule of rates set forth in Exhibit "B," said exhibit being attached hereto and made a part hereof.

3. Southern Counties Gas Company of California file with this Commission on or before June 16th, 1927, the schedule of rates herein authorized.

4. For all other purposes the effective date of this order shall be twenty (20) days from and after the date hereof.

The foregoing Supplemental Opinion and Order are hereby approved and ordered filed as the Opinion and Order of the Railroad Commission of the State of California.

Dated at San Francisco, California, this 12th day of June, 1927.
