Joint User Service

Roseville

Rate per Month

Each Joint User Business Commercial Flat Rate Private Branch Exchange Service \$2.50

The applicability of joint user service is determined by the obvious or actual use made of the service.

The rate for joint user service includes a listing in the telephone directory and applies in addition to the rates and charges for the facilities and all other service provided. Joint user service is applicable and is furnished upon applications made by the subscriber as follows:

- 1. Applications for the use of the subscriber's service by any individual, firm, company or association occupying jointly or in part the premises in which the primary station is located. The subscriber's facilities or service are not to be extended outside the premises to provide joint user service.
- 2. Applications for the use of the subscriber's service for another business conducted by the subscriber and differing in character and subject to a different classification from that for which the facilities are provided.

In the case of individuals, firms, companies and associations engaged in the same business or profession, utilizing a common reception room with offices entering thereon or adjoining thereto, one of the number may become the subscriber and the remainder joint users. If the individuals or members of a firm, company or association file a joint income tax return, that will be accepted as sufficient evidence of a single business and joint user service is not applicable. Whenever any individual member of a firm, company or association does not substantially participate in the earnings of his fellow members of such firm, company or association, then that fact shall be conclusive evidence that he is a joint user and the joint user rate is applicable.

The minimum charge for joint user service shall be the monthly rate, provided that if the service is listed in the tele-phone directory it shall be paid for until the end of the directory period unless the subscriber's service is discontinued or the joint user becomes a subscriber to business service in the same exchange.
