

Decision No. 18986.

BEFORE THE RAILROAD COMMISSION OF THE STATE OF CALIFORNIA,

In the Matter of the Application
of the County of Glenn for the con-
struction of Public Railroad Cross-
ing on County Road at Northwest Cor-
ner of Subdivision Five (5), U.S. Ir-
rigation District at Orland.

Application No. 13950.

BY THE COMMISSION:

ORDER**ORIGINAL**

The Board of Supervisors of the County of Glenn, State of California, filed the above entitled application with this Commission on the 23rd day of July, 1927, asking for authority to construct a county road at grade across the track of the Hamilton Branch of Southern Pacific Company, at the northwest corner of Subdivision Five (5), U. S. Irrigation District at Orland and which is also on the west line of Sec. 18, T. 22, N.R. 2 W. This crossing was closed under Decision 4876, dated November 24, 1917, (Application 3281) in lieu of a crossing authorized therein north and south along the center of said Sec. 18. At the present time there is but one mixed train daily in each direction (one at around 4 A.M.) over this line. Said Southern Pacific Company has signified by letter that it has no objection to the construction of said crossing at grade, and it appears to this Commission that the present proceeding is not one in which a public hearing is necessary; that it is neither reasonable nor practicable at this time to provide a grade separation or to avoid a grade crossing with said track at the point mentioned in this application, and that this application should be granted, subject to the conditions hereinafter specified, therefore

IT IS HEREBY ORDERED that permission and authority be and it is hereby granted to the Board of Supervisors of the County of Glenn, State of California, to construct County Road at grade

across the track of the Hamilton Branch of Southern Pacific at the northwest corner of Subdivision Five (5), U.S. Irrigation District of Orland, and as shown by the map attached to the application.

The above crossing shall be identified as Crossing No. AJ-169.8.

Said crossing shall be constructed subject to the following conditions and not otherwise:

1. The entire expense of constructing the crossing shall be borne by applicant. The cost of maintenance of that portion of said crossing up to lines two (2) feet outside of the outside rails shall be borne by applicant. The maintenance of that portion of the crossing between lines two (2) feet outside of the outside rails shall be borne by Southern Pacific Company. No portion of the cost herein assessed to applicant for the construction or maintenance of said crossing shall be assessed by applicant, in any manner whatsoever, to the operative property of Southern Pacific Company.

2. The crossing shall be constructed of a width not less than twenty-four (24) feet and at an angle of ninety (90) degrees to the railroad and with grades of approach not greater than five (5) per cent; shall be constructed substantially in accordance with Standard No. 2, as specified in General Order No. 72 of this Commission; shall be protected by a suitable crossing sign and shall in every way be made safe for the passage thereon of vehicles and other road traffic.

3. Applicant shall, within thirty (30) days thereafter, notify this Commission, in writing, of the completion of the installation of said crossing.

4. If said crossing shall not have been installed

within one year from the date of this order, the authorization herein granted shall then lapse and become void, unless further time is granted by subsequent order.

5. The Commission reserves the right to make such further orders relative to the location, construction, operation, maintenance and protection of said crossing as to it may seem right and proper and to revoke its permission if, in its judgment, the public convenience and necessity demand such action.

The authority herein granted shall become effective on the date hereof.

Dated at San Francisco, California, this 3d day
November
of ~~October~~, 1927.
