

Decision No. 19973

BEFORE THE RAILROAD COMMISSION OF THE STATE OF CALIFORNIA.

ORIGINAL

California Farm Bureau Federation,  
J. J. Deuel, et al.,  
Complainants.

vs.

San Joaquin Light & Power Corporation,  
Defendant.

Case No. 2510.

BY THE COMMISSION:

ORDER OF DISMISSAL

The above numbered complaint, being the complaint of California Farm Bureau Federation, J. J. Deuel, et al., against San Joaquin Light and Power Corporation, alleges that the agricultural power rates of defendant are unjust, unreasonable and discriminatory.

Complainants and defendant now ask that this matter be dismissed, defendant having agreed to file a reduced agricultural power rate, effective April 1, 1929, and to make certain refunds on outstanding accounts of consumers who had advanced moneys under defendant's former electric line extension rule in excess of that which would be required under its present extension rule.

The Commission has considered defendant's proposal and, in view of the steps defendant has agreed to take, feels that a hearing in this matter is no longer necessary.

Therefore, good cause appearing,

IT IS HEREBY ORDERED that the above entitled proceed-

ing, being Case No. 2510, be and the same is hereby dismissed.

Dated at San Francisco, California, this 29<sup>th</sup> day  
of June, 1928.
