

Decision No. 22000.

BEFORE THE RAILROAD COMMISSION OF THE STATE OF CALIFORNIA.

In the Matter of the application
of CENTRAL CALIFORNIA TRACTION
COMPANY for certain exemptions
from General Order No. 75.

ORIGINAL

Application No. 13882.

BY THE COMMISSION:

FIRST SUPPLEMENTAL OPINION AND ORDER.

Central California Traction Company, applicant herein, filed its first supplemental application in this proceeding on March 22, 1929, seeking authority to maintain certain automatic wigwags which do not conform to the provisions of Section VI of General Order No. 75. The existing wigwags are of the upper quadrant type, located at the side of the highway, while General Order No. 75 requires the lower quadrant type suspended over the edge of the highway.

An inspection of these crossings has been made by the Commission's Engineering Department, as a result of which recommendations have been made that certain of the wigwags be changed so as to comply with Section VI of General Order No. 75, and that authority be granted to maintain the remaining wigwags as at present installed. No exception has been taken to this report by the carrier and an appropriate order will accordingly be entered.
