) Supplemental) Application) No.13582

BY THE COMMISSION -

OPINION and ORDER On SUPPLEMENTAL APPLICATION

This is a joint application by Pickwick Stages System, Kern County Transportation Corporation and C. C. Haworth for an order of the Railroad Commission authorizing the assignment by Kern County Transportation Corporation to C. C. Haworth of the lease of operating rights for the transportation of passengers and property between Bakersfield and Pase Robles and between Taft, Lost Hills and Coalinga, entered into by Pickwick Stages System as lessor, and Kern County Transportation Corporation as lessee, which lease was approved by the Railroad Commission in its Decision No.18092, dated March 21, 1927, and issued on Application No.18582.

The consideration is named as the nominal sum of \$100.

Under authority of the Railroad Commission (Decision No.22093), Kern County Transportation Corporation recently transferred its operating rights and properties to California Transit Co. The lease herein referred to was not involved. Kern County Transportation Corporation does not desire to continue operation of the leased rights. C. C. Haworth, one of the applicants herein, and a former stockholder of Kern County Transportation Corporation, however, proposes to take over said lease, and to continue operation of the service. Said oper ation has been under his direction and supervision since 1927, and the assignment to him of the lease will enable him to continue said operation as an individual.

We are of the opinion that this is a matter in which a public hearing is not necessary and that the application should be granted. Therefore,

IT IS MEREBY ORDERED that the assignment by Kern County Transportation Corporation to C. C. Haworth of the lease heretofore entered into by said corporation and Pickwick Stages System, as approved by Railroad Commission Decision No.18092, be and the same is hereby approved, and

IT IS HEREBY FURTHER ORDERED that said Kern County Transportation Corporation, C. C. Haworth and Pickwick Stages System file with the Railroad Commission such tariffs and time schedules as are necessary to cover the operating changes herein authorized.

Dated at San Francisco, California, this 24 1930.

COMMISSIONERS.
