Complainant,

vs.

Pacific Gas and Electric Company,
Defendant.

Case No. 2200.

In the Matter of the Investigation
 on the Commission's own motion into
 the reasonableness of the rates and
 charges of the Pacific Gas and Elec-
 tric Company for electrical service.

Case No. 2225.

And

The Commission's Order to Show Cause
 why interim rates should not be made
 effective during the pendency of this
 consolidated proceeding.

BY THE COMMISSION:

SUPPLEMENTAL OPINION AND ORDER

In Decision No. 22031, dated January 15, 1930, this Commission ordered Pacific Gas and Electric Company to charge and collect for electric service the rates set forth in Exhibit "A", attached to and made a part of that decision, and to be effective for all regular meter readings taken on and after March 1, 1930.

Schedule P-1, for general power service, and Schedule P-5, for primary industrial power service, carry a power factor adjustment clause applicable to all installations of 500 horsepower or more, and will require special metering equipment to be purchased and installed by Pacific Gas and Electric Company.

Subsequent to the date of the above decision, it has developed that, due to the excessive demand for this type of equipment, the manufacturers will be unable to deliver this equipment to Pacific Gas and Electric Company in time to be installed to meet the requirements of the order. Therefore an extension of time will be necessary to permit the obtaining and installing of this metering equipment.

O R D E R

Pacific Gas and Electric Company having asked permis-

sion for an extension of time within which to comply with that portion of Decision No. 22031, relative to the application of the power factor clause set forth in Schedules P-1 and P-5, and good cause appearing,

IT IS HEREBY ORDERED that Decision No. 22031, dated January 15, 1930, be and the same is hereby modified to the extent that the power factor clause appearing in Schedule P-1, and designated as paragraph (e) under the special conditions of this schedule, and the power factor clause appearing in Schedule P-5, and designated as paragraph (d) under the special conditions of this schedule, be made effective for all bills based on regular meter readings taken on and after July 1, 1930.

In all other respects this Commission's Decision No. 22031, dated January 15, 1930, shall remain in full force and effect.

The effective date of this order shall be the date hereof.

Dated at San Francisco, California, this 21st day of February, 1930.
