

Decision No. 22877.

BEFORE THE RAILROAD COMMISSION OF THE STATE OF CALIFORNIA

In the Matter of application of  
SOUTHERN PACIFIC COMPANY for an  
order authorizing the construc-  
tion at grade of a crossover track  
across Ninth Street, in the City  
of Sanger, County of Fresno,  
State of California.

**ORIGINAL**

Application No. 16831.

BY THE COMMISSION:

O R D E R

Southern Pacific Company, a corporation, filed the above entitled application with this Commission on the 20th day of August, 1930, asking for authority to construct a crossover track at grade across Ninth Street in the City of Sanger, County of Fresno, State of California, as hereinafter set forth. The necessary franchise or permit (Resolution No. 409) has been granted by the City Council of said city for the construction of said crossing at grade. It appears to this Commission that the present proceeding is not one in which a public hearing is necessary; that it is neither reasonable nor practicable at this time to provide a grade separation or to avoid a grade crossing at the point mentioned in this application with said Ninth Street and that this application should be granted subject to the conditions hereinafter specified, therefore

IT IS HEREBY ORDERED that permission and authority be and it is hereby granted to Southern Pacific Company to construct a crossover track at grade across Ninth Street in the City of

Sanger, County of Fresno, State of California, at the location as shown by the map (San Joaquin Division Drawing A-4088) attached to the application.

The above crossing shall be identified as a portion of Crossing No. EC-219.9.

Said crossing shall be constructed subject to the following conditions, and not otherwise:

(1) The entire expense of constructing the crossing together with the cost of its maintenance thereafter in good and first-class condition for the safe and convenient use of the public, shall be borne by applicant.

(2) Said crossing shall be constructed equal or superior to type shown as Standard No. 2, in General Order No. 72 of this Commission and shall be constructed without superelevation and of a width to conform to that portion of said street now graded, with the tops of rails flush with the roadway, and with grades of approach not exceeding one (1) per cent; shall be protected by a Standard No. 1 crossing sign as specified in General Order No. 75 of this Commission and shall in every way be made suitable for the passage thereover of vehicles and other road traffic.

(3) Applicant shall, within thirty (30) days thereafter, notify this Commission, in writing, of the completion of the installation of said crossing.

(4) If said crossing shall not have been installed within one year from the date of this order, the authorization herein granted shall then lapse and become void, unless further

time is granted by subsequent order.

(5) The Commission reserves the right to make such further orders relative to the location, construction, operation, maintenance and protection of said crossing as to it may seem right and proper, and to revoke its permission if, in its judgment, the public convenience and necessity demand such action.

The authority herein granted shall become effective on the date hereof.

Dated at San Francisco, California, this 11th day of September, 1930.
