

Decision No. 23666.

BEFORE THE RAILROAD COMMISSION OF THE STATE OF CALIFORNIA.

In the matter of the application of PACIFIC GAS AND ELECTRIC COMPANY, a corporation, for an order of the Railroad Commission of the State of California, granting to applicant a certificate of public convenience and necessity to construct gas transmission lines and systems herein described, and to distribute and sell natural gas for domestic, commercial and industrial uses in the incorporated and unincorporated cities and towns mentioned herein and in all places and in territory adjacent to applicant's gas transmission and distribution systems now constructed or in course of construction by and under authority granted to it by the Railroad Commission and by and under the Public Utilities Act of California; and to exercise the rights, privileges and franchises listed herein, or such other franchises as may be necessary to distribute and sell natural gas in central and northern California.

ORIGINAL

Application No. 16004
Amended and Supplemental.

BY THE COMMISSION:

SUPPLEMENTAL OPINION and ORDER

In its Decision No. 23669, dated July 10, 1930, this Commission granted a preliminary certificate of public convenience and necessity to Pacific Gas and Electric Company, covering the construction, operation and maintenance by applicant of the natural gas transmission and distribution system necessary to serve natural gas to the inhabitants of certain specific cities, towns and communities therein set forth and the exercise by applicant of all permits, easements and franchises necessary for such construction, operation and maintenance, all subject to certain conditions

among which were the following:-

- "(d) That lines shall not be constructed or operated in any county, city or town of this State unless and until Pacific Gas and Electric Company shall file with this Commission certified copies of the franchises, permits or easements necessary therefor."
- "(e) That Pacific Gas and Electric Company shall file with this Commission stipulations duly executed on authority of its Board of Directors agreeing that it will never claim for any of the franchises, permits or easements used in connection with this project a value in excess of the cost thereof."
- "(f) Upon the filing of these franchises and stipulations referred to in paragraphs (d) and (e), in the proper form, this Commission will issue its supplemental order authorizing the exercise of the rights and privileges conferred by such franchises, permits and easements. Said franchises, permits, easements and stipulations shall be filed on or before September 30, 1930."

Applicant having now satisfactorily complied with all of the conditions set forth in Decision No. 22669, it is the opinion of this Commission that a final certificate should be granted, and therefore,

Good cause appearing, the Railroad Commission of the State of California hereby orders and declares that a certificate of public convenience and necessity be and the same is hereby granted to Pacific Gas and Electric Company, authorizing the construction, operation and maintenance, by applicant, of the natural gas facilities and the exercise, by applicant, of all permits, easements and franchises necessary thereto, to the extent and subject to the conditions set forth in said Decision No. 22669, dated July 10, 1930.

The effective date of this Order shall be from

and after the date hereof.

Dated at San Francisco, California, this 17th
day of August, 1931.
