Decision NTO. $\qquad$ .

In the matter of the Applicetion of The People of the State of Califozais, on relation of the Department of Pubifc TOries, for an order authorizing the construction of a steve highway crossIng at grade over the tracks of tie Souther = Pacific Company railroad spam serving the United states distal fir Bose near Sumprale, in Sam تinteo County.

BY COMETSSIOR:

Appicetton No. 17949.

## 오코ㄹㅡㅗ

In the above entitled epplicsilion, authority is sought to construct State Eighmay Route $\ddagger 68$ (Bay Shore Eigimay) at grade across Southern Pacific Company's nervy constructed sour track serbing the United States Naval air Base located about two miles to the north of smayrale, Santa clare County (erroneously stated to be Sen Zante o County in the appiscetion).

The high my involved is the new Bey Shore <compat>ᄑighrey when, when completed, Till afford a direct ing h speed artery between sam Francisco and Sen Jose. It is nom opened for traffic between sem Francisco and Redwood City. The section involved herein is located opposite the United States Navel fir Base and as part on the uncompleted portion of the proposed new State zigimay south of Redmond City. Applicant is opening up this section of the highway, which extents for a distance of about one mile, affording a connection between Thisman Road and Mountain Tier ane Alviso Road, in advance of
the adjoining portion, to accomodete vehicula= trarfic to and
 section of the roed $\pi$ inth grevel for the present, to be improved Fith some type oi perement when it becomes a pert oi the through inemmay.

Soutinern Pacific Company has indicated, in witing, thet It $\pi 111$ not oppose tie grenting of tinis application. It appeam thet the trein movements over this croscine will be intreguent end at slow rates of speed.

THELe it is desirabie to keep thas importent higimay artery Iree Inom Erade croszuge, it doec not appear that under present concltions tie expense of a sepuration is jnstiざied. In vier of the fact that this section 7111 be a part of a high spece highmay artcyy, when it is paved anc becomes a part of the mein Bey Sicore Eighorey, trains moving over the hienvey on tice track invoived should be onnouncec by signais as 7eld as illwingted.

In the anterest of accomodating tratifc to the Navel ifir Bese, perticularly in view or the Eect thet there ame expectec to be large crowds to mitness the netal dirigible "armon," due bere in the near Iuture, the comission will grant tiais applicetion without requiring the fimediate installation of crossine signols but will require sufteble protection when this becomes a portion of a through nighmey.

IT IS HEMWY ORDSRED thet the Zeople of the State of Califorpia, on relation of the Department of Ploioic Torks, Division oI Eighways, is hereby autinorized to construct a State Zughray at grede across e spur track of Southerz Paciric company at the locetion, more particularly described in tie appifcetion and as shomp by
the map (Exhibli A) atracined thereto, subject to the =ollowing conditions anc not othemiso:
(1) The above crossing sholl be 1 dentifiec as cross1ng No. さ-58.27-C.
(2) The entire expense of constructing the cross1n5, ercepting the trect improvereat, sheil be borme by applicant. Southerr Paciric compeny chail, at its ow expence, prepare its track to rocelve the perement or other zurfacine materisil. The cost or mannenance of thet portior on sea crossing outsice or isues two (2) feet outside or the outsice rasis shali be borne by appifcant. The manterance of that gomtion of tie crossing betreen lines two (2) fect outsice of the outside reine shall be bozne by Southern paciric Compeny. Soutiern Paciric compeny shair zupentio SII actual mork of constructing the crossing betreen innes tro (2) leet outside of the outside reils.
(3) The crossing sheil be constructed of a M1ath of not less than zorty (40) feet anc at an aneie to the rallroad as show on the map accompenyine the application and \#ith srades of approach not greatof than two (2) yer cent; shail de constructed equai or superioz to type shoma as stancira Mo. 2 in our Gererai order No. 72; shail be protected by two Standera $\mathrm{TO}_{0} 1$ crosesine signs, as specitiea in our zenerai orcer xo. 75, ard shall in every 7ay be mede unsteble for the passege thereoz of vehscies anc other zose tra=-1c.
(4) Before thas crossing becomes e part of a through bighrey, it sinsil be provectec Fith eutometic sigeals and llood $11 z \operatorname{ts}$ in accordance mith a plan to be spproved by tine Commission, seid plan to be presented by applicari. The oxpense or providing zuch sienals shail be borne by applicant. The expense of mainteining sume siein be bome by Southern Pecinic company. peadie tine time zignols are instaijed, tratifo on the nichmay zeall bo protected by a member of tine tratn crem or otizer competent emplojee acian as =2acmen.
(5) ippixeent shoin, Within thinty (30) daye thereefter, notify this comassion, in writine, of The completion of the insteliation ot saic crossing and of its complance $\quad$ ith the conditions дereof.
(6) The autiorizetion horein grentec ahoil lapse anc become vola it not exercisec \#itinn one (i) yeer
year Irom the date hereoz unless further time is Grantcd by subsecuent orde=.
(7) The comiscion recerves tie right to make such Eurther orcers, relative to the joccrion, construction, operation, meintenence and protection or said crossing, as to it may seem rigit anc propor and to revoise its perwission ir, in 士ts judgent, public convenzence and necessity cemand such ection.
The tuthority herest cranted shail bocome eifective on the dete nereo:.
