

In the matter of the application of  
HOME TELEPHONE COMPANY OF COVINA for  
order authorizing the issue and sale  
of 369 shares of common stock as per  
Section 52 (b) of the Public Utilities  
Act of the State of California.

Application No. 110.

EDGERTON, Commissioner.

## OPINION.

This is an application by Home Telephone Company of Covina for an order authorizing the issue and sale of 369 shares of common stock at par, \$50.00 per share, or a total of \$18,450.00, with permission to pay commissions on said sale.

Applicant is a telephone company operating without competition in the towns of Puente, Rowland, Irwindale, Charter Oak, San Dimas, Walnut Center, Bassett, Baldwin Park, Valley View, Covina, Azusa, Glendora and intervening territory, in the County of Los Angeles, California.

The capitalization of the company is as follows:-

Stock all common, authorized,	outstanding
	\$200,000.00
Bonds at 5%	\$ 50,000.00
Additional indebtedness borrowed	
from banks on one day notes	\$16,500.00

The plant value is claimed by applicant to be approximately equal to the outstanding capitalization, but no sufficient evidence was produced upon which to base an intelligent conclusion as to this. The testimony shows that the money represented by the \$16,500.00 of indebtedness, which it is proposed to pay off with the proceeds of this stock sale, went into extensions and additions to the plant, which makes it a proper basis for capitalization.

Applicant's accounts show that for two years it has paid

all fixed charges, including 6% on the floating debt of \$16,500.00, and, in addition, a dividend of 6% on its outstanding stock, and has on hand a surplus of \$5,000.00. Because of the failure to show that depreciation has been properly taken care of, it is impossible to determine whether an accurate statement of net income has been or can be made at this time. However, this matter should be left for future determination after the uniform system of accounting, now being prepared by the experts of the Commission, has been installed.

As the \$16,500.00 is an indebtedness, payment of which may be demanded at any time, the interest on which is a fixed charge against the company, and the result of the sale of this stock and the payment of this debt would be to change this indebtedness with its fixed charge for interest into a stock ownership upon which dividends may be paid at the option of the company, I recommend that the application be granted and that a commission on the sale, not to exceed 5% on the par value of the stock, be allowed to be paid.

The following form of order is herewith submitted:-

O R D E R .
