O P I N I O N .

GORDON, Commissioner:

This is an application, whereby Pacific Gas and Elec-
 tric Company seeks permission to purchase the capital stock of West
 Sacramento Electric.

West Sacramento Electric was organized on September
 5, 1911, to construct and operate an electrical distributing system
 in Broderick and territory adjacent thereto, in Yolo County, Califor-
 nia.

West Sacramento Electric was organized by E. R. Lillien-
 thal and associates. The company has an authorized capital stock is-
 sue of \$100,000 divided into 1000 shares of the par value of \$100 each.
 All of the stock is outstanding. During the early part of 1914, the
 organizers of West Sacramento Electric sold their stock to H. W.
 Furlong for the sum of \$40,000. In payment, H. W. Furlong gave three
 promissory notes, secured by the stock of West Sacramento Electric.
 When the notes became due, H. W. Furlong refused to pay them. He

alleged that E. R. Lilienthal and his associates had not complied with certain agreements and that because of such non-compliance he suffered damages in excess of the face value of the notes. Thereafter he brought an action in the Superior Court of the City and County of San Francisco to enjoin E. R. Lilienthal and his associates from foreclosing on the pledged stock. E. R. Lilienthal and his associates have assigned their interests to George F. Detrick.

Both George F. Detrick and H. W. Furlong have agreed to sell and transfer any and all interests they may have in the stock of West Sacramento Electric to Pacific Gas and Electric Company for the sum of \$50,000 in cash. The sum of \$27,000 is to be paid to George F. Detrick and \$3,000 to H. W. Furlong. Both have agreed to use the cash payments to purchase first preferred stock of Pacific Gas and Electric Company at \$82.50 per share.

Both H. W. Furlong and George F. Detrick have agreed to in case the Commission grant this application to cause the pending litigation to be dismissed. The notes, given by H. W. Furlong in payment for the stock of West Sacramento Electric, are to be cancelled.

In Exhibit No. 1 applicants report the value of the physical property of West Sacramento Electric, as follows:

The testimony in this proceeding shows that West Sacramento Electric has a total indebtedness amounting to \$28,435.21. All but \$3,400 of its indebtedness is due to Pacific Gas and Electric Company. The indebtedness due Pacific Gas and Electric Company represents the cost of lines purchased from Pacific Gas and Electric Company, the cost of making repairs and the cost of electrical energy. The current assets of West Sacramento Electric are reported at \$4,700. By acquiring the stock of West Sacramento Electric, the Pacific Gas and Electric Company, becomes liable for its indebtedness.

Witness for Pacific Gas and Electric Company testified that the distributing system of West Sacramento Electric can readily be absorbed into the system of Pacific Gas and Electric Company. It is the intention of the Pacific Gas and Electric Company to make the necessary adjustments as soon as possible.

West Sacramento Electric has reported earnings and expenses for the year ended December 31, 1914, as follows:

Operating revenues - - - - - \$22,398.97

Operating expenses - - - - - 17,385.54

Net operating revenues - - \$ 5,015.65

The report shows no deductions because of interest payments.

I herewith submit the following form of Order:
