By the Commission,

O R D E R

SOUTHERN PACIFIC COMPANY, a corporation, having on
October 13, 1915, filed with the Commission an application for
permission to construct a spur track at grade across Weber Avenue
and Monroe Street, in the City of Stockton, San Joaquin County,
California, as hereinafter indicated, and it appearing to the
Commission that this is not a case in which a public hearing is
necessary; that the necessary franchise or permit for the con-
struction of this spur track at grade has been secured from the
City Council of the City of Stockton, and it further appearing
that it is not reasonable nor practicable to avoid grade crossings
with said streets, and that this application should be granted,
subject to the conditions hereinafter specified.

IT IS HEREBY ORDERED, That permission be hereby granted
Southern Pacific Company to construct its spur track at grade
across Weber Avenue and Monroe Street, in the City of Stockton,
San Joaquin County, California, on the south side of its main line
track, as shown by the map attached to the application; said
spur track to be constructed subject to the following conditions,
viz.: -

- (1) The entire expense of constructing the crossings, to-
gether with the cost of their maintenance thereafter in good and
first-class condition for the safe and convenient use of the public
shall be borne by applicant.
- (2) Said crossings shall be constructed of a width and type
of construction to conform to those portions of Weber Avenue and

Monroe Street now graded, with grades of approach not exceeding four (4) per cent; shall be protected by a suitable crossing sign, and shall in every way be safe for the passage thereover of vehicles and other road traffic.

(3) The Commission reserves the right to make such further orders relative to the location, construction, operation, maintenance and protection of said crossings as to it may seem right and proper, and to revoke its permission if, in its judgment, the public convenience and necessity demand such action.
