Decision No. 5838

BEFORE THE RAILROAD COMMISSION OF THE STATE OF CALIFORNIA.

In the Matter of the Application))
of F. L. RYUS for an order per-))
mitting him to discontinue the))
operation of a water system at))
Fettors Springs, Sonoma County,))
California.))

Application No. 4062.

BY THE COMMISSION.

ORDER

F. S. RYUS has applied for authority to discontinue the operation of a public utility water system supplying from seven to twelve consumers at Fettors Springs, Sonoma County, California.

Applicant alleges that the plant is in a run-down condition and that he is unable, financially, to rehabilitate the same. He is also about to enter the military service of the United States and has been unable to employ anyone to operate the plant during his absence. Applicant has, however, arranged with W. E. Turner, who operates and maintains a public utility water system at Fettors Springs, to take over and supply his consumers with water, so that no hardship will be worked on anyone by reason of the discontinuance of service.

Mr. Turner has advised the Commission that the two water systems are already connected and that he has been supplying the con-

sumers of Mr. Ryus for the past two months. He further states that the water supply and facilities are adequate to serve the additional consumers and that he is willing to take over the service.

It appearing to the Railroad Commission that a public hearing in the above entitled matter is not necessary.

IT IS HEREBY ORDERED that the application be and the same is hereby granted.

Dated at San Francisco, California, this 9th day of October, 1918.
