Application No. 4281.

BY THE COMMISSION

O R D E R

VALLEY MOTOR TRANSPORT COMPANY, a corporation, has petitioned the Railroad Commission for an order declaring that public convenience and necessity require the operation by it of an automobile truck line as a common carrier of persons and property between Colusa and Red Bluff and intermediate points.

Applicant proposes to charge rates in accordance with a schedule marked exhibit "A" and filed with the application in this proceeding, although the schedule upon which operation is to be conducted have not yet been formulated.

The intermediate communities proposed to be served are Williams, Maxwell, Willows, Germantown, Orland and Corning.

The initial equipment proposed to be used for the transportation of freight will consist of five motor trucks each of four ton capacity. Additional equipment is to be provided when the demands of traffic warrant.

We are of the opinion that this is not a matter in which a public hearing is necessary, there being no other motor

freight service available for the public along the proposed route.

THE RAILROAD COMMISSION HEREBY DECLARES that public convenience and necessity require the operation by Valley Motor Transport Company, a corporation, of an automobile line as a common carrier of passengers and property between Colusa and Red Bluff and intermediate points; provided, however, that this declaration shall not become effective until said Valley Motor Transport Company shall have procured from the Railroad Commission a supplemental order herein reciting that said Valley Motor Transport Company has filed herein certified copies of permits issued by the Boards of Supervisors of the Counties of Colusa, Glenn and Tehama and from the Boards of Trustees of the Towns of Colusa, Willows and Orland, and the Cities of Corning and Red Bluff in accordance with the provisions of Section 5 of Chapter 213, Laws of 1917; and provided, further, that the rights and privileges herein granted may not be transferred nor assigned unless the written consent of the Railroad Commission to such transfer or assignment has first been secured.

IT IS HEREBY ORDERED that no vehicle may be operated under this permit unless such vehicle is owned by the applicant herein or is leased by such applicant under a contract or agreement on a basis satisfactory to the Railroad Commission.

Dated at San Francisco, California, this 15th day of January, 1919.
