

Decision No. 7213
BEFORE THE RAILROAD COMMISSION OF THE
STATE OF CALIFORNIA

--oOo--

ORIGINAL

In the matter of the application of :
MONTICELLO STEAMSHIP COMPANY to in- : Application No. 4257
crease freight rates. :

OPINION AND ORDER UPON PETITION FOR REHEARING

BY THE COMMISSION:

Monticello Steamship Company has applied for a re-hearing on its application No. 4257 to increase its freight rates.

Misinterpretation of evidence and failure to give proper weight to certain testimony as well as error of facts and conclusions of law are alleged as justifications for a request for rehearing.

A careful consideration of the whole matter, not only as set forth in the petition for rehearing, but also resulting from a further analysis of the majority and minority opinions heretofore rendered upon this application, and the testimony upon which they were predicated, do not, in our judgment, justify granting the petition for rehearing, and it will therefore be denied.

O R D E R

Monticello Steamship Company having petitioned for a rehearing on Application No. 4257, and the matter

having received careful consideration, as set forth in the Opinion preceding this Order, and it appearing that good and sufficient reasons for granting said rehearing have not been presented, said rehearing is hereby denied.

Dated at San Francisco, California, this
4th day of March, 1920.

Edwin O. Edgerton

Frank R. Whelan

H. R. Brundage

Commissioners.

For the reasons set forth in the petition for rehearing and based upon our dissention from the majority Opinion heretofore rendered in this application, we dissent from this Opinion denying petition for rehearing.
