BY THE COMMISSION:

ORDER

J. H. BARNES has petitioned the Railroad Commission for an order declaring that public convenience and necessity require the operation by him as a common carrier of milk and cream between Hopland and Big Valley and intermediate points.

Applicant proposes to charge a rate of six cents per gallon, and to operate on a tri-weekly schedule, leaving Big Valley and following the county road through Big Valley over the so-called "free road" and over the mountains when road conditions permit, and at other times over the Pieta Toll Road.

There being no other service of a similar nature, and such service will be of material benefit to Big Valley and surrounding territory in Lake County, and we are of the opinion that this is not a matter in which a public hearing should be held, and that the application should be granted.--

THE RAILROAD COMMISSION HEREBY DECLARES that public convenience and necessity require the operation by J. E. Barnes of an automobile truck line as a common carrier of milk and cream between Hopland and Big Valley and intermediate points; provided, however, that the rights and privileges herein granted may not be transferred nor assigned unless the written consent of the Railroad Commission to such transfer or assignment has first been secured.

IT IS HEREBY ORDERED that no vehicle may be operated under this certificate unless such vehicle is owned by the applicant herein or is leased by said applicant under a contract or agreement on a basis satisfactory to the Railroad Commission.

Dated at San Francisco, California, this 11<sup>th</sup> day of March, 1920.
