Minimum Charge

a. Connected Load Basis.

\$1.00 per month per horsepower of active connected load for the first 50 horsepower plus \$0.60 per month per horsepower for each horsepower of load in excess of 50 horsepower, but not less than \$2.00 per month.

b. Maximum Demand Basis.

\$1.00 per month per horsepower of measured maximum demand, which shall not be considered as less than 20% of the total active connected load, and in no case less than \$50.00 per month.

Special Conditions

- a. Direct Current Service. If the Company elects to supply direct current the charges for direct current service shall be in accordance with the above rates and minimums. If the consumer elects to use direct current when both direct and alternating current service are available the charges for direct current service shall be 10% in addition to the above rates and minimums.

- b. Maximum Demand. Consumers having a total connected load in excess of 50 H.P. consisting of two or more motors may, upon request, have the rate and minimum based upon the maximum demand, which is defined as the greatest average horsepower demand registered during any 15 minute interval during the month; except that for service to intermittent loads such as elevators, hoists, etc. the interval of registration may be 3 minutes instead of 15 minutes.
- c. Option of Rates for Larger Installations. Any consumer may obtain the rates for a larger installation by guaranteeing the rates and minimums applicable to the larger installation.

IT IS HEREBY FURTHER ORDERED that the surcharge of 15% authorized in Decision No. 7824 shall apply to the rates hereinabove set forth, and both the above rates and surcharge shall apply to service rendered in accordance with the effective date of Decision No. 7824 herein.

PROVIDED, Great Western Power Company shall within ten days of the date of this order file with the Railroad Commission the schedules of rates herein established.

Dated at San Francisco, California, this 14th day of July, 1920.
