Decision No. 9060

BEFORE THE RAILROAD COMMISSION OF THE STATE OF CALIFORNIA

-000-

In the Matter of the Application
of E. J. KEYES for certificate of
public convenience and necessity
to operate automobile passenger
and freight service between Jackson
and Silver Lake, California.

)
:
) Application No. 6879
)
;
)

BY THE COMMISSION,

O R D E R

J. E. Keyes has made application to the Railroad Commission in which he petitions for a certificate of public convenience and necessity to operate an automobile passenger and freight service between Jackson and Silver Lake, California, and intermediate points.

Applicant proposes to make one round trip per day, three days per week and charge a rate of \$5.00 per passenger each way and a rate of \$1.00 per hundred pounds for freight with a minimum charge for small packages of 25 cents. There are at present no facilities for the transportation of passengers or freight between the two points named except by private conveyances, and, therefore, we are of the opinion that this is not a matter in which a public hearing is necessary and that the application should be granted:

IT IS HEREBY DECLARED, that public convenience and necessity require the establishment of an automobile freight and passenger service by E. J. Keyes, between Jackson and Silver Lake, Amador County, California, and intermediate points and that a certificate of public convenience and necessity should be and the same hereby is granted, subject to the following conditions:

1.

1. That applicant, E. J. Keyes, shall not accept any local business between Jackson and Volcano, as such territory is at the present time served by an existing transportation company.

2. That the applicant, E. J. Keyes, will file with the Railroad Commission a written acceptance of this certificate within twenty (20) days from the date of service hereof, and that operation of such service will commence within sixty (60) days from the date of service hereof.

3. That the applicant, E. J. Keyes, will be required to immediately file a tariff of rates, rules and regulations and a time schedule in accordance with the provisions of General Order No. 51, and other regulations of the Railroad Commission.

4. That the rights and privileges hereby authorized may not be discontinued, sold, leased, transferred nor assigned, unless the written consent of the Railroad Commission to such discontinuance, sale, lease, transfer or assignment has first been secured.

5. That no vehicle may be operated by the applicant, E. J. Keyes, unless such vehicle is owned by said applicant or is leased by him under a contract or agreement on a basis satisfactory to the Railroad Commission.

Dated at San Francisco, California, this 6th
day of June, 1921.
