(2) The crossing shall be constructed of a width not less than twentyfour (24) feet and at an angle of seventy-nine (79) degrees and fifteen (15) minutes to the Railroad and with grade of approach not greater than four (4) per cent; shall be protected by a suitable crossing sign and shall in every way be made safe for the passage thereon of vehicles and other road traffic.

(5) The Commission reserves the right to make such further orders relative to the location, construction, operation, maintenance and protection of said crossing as/^{to} it may seem right and proper and to
