

Decision No. 28197.

ORIGINAL

BEFORE THE RAILROAD COMMISSION OF THE STATE OF CALIFORNIA.

In the Matter of the Application
of San Diego Electric Railway Com-
pany, a corporation, for permission
to construct a grade crossing between
its tracks and the new West Atlantic
Street highway extension at the
approximate intersection of West
Atlantic Street and Barnett Avenue in
San Diego, California.

Application No. 18938.

BY THE COMMISSION:

ORDER

San Diego Electric Railway Company, a corporation, has requested authority to establish and maintain a grade crossing of its tracks with West Atlantic Street at Barnett Avenue in the City of San Diego, this grade crossing to be provided with adequate protective devices. The West Atlantic Street extension will be a new State Highway route in the City of San Diego and will cross the existing tracks of applicant at the location of the grade crossing involved in this application. It appears that a separation of grades is not practical; that a public hearing is not necessary herein; and that the application should be granted, therefore

IT IS HEREBY ORDERED that San Diego Electric Railway Company is hereby authorized to establish and maintain a grade crossing of its tracks with said West Atlantic Street highway extension at the approximate intersection of West Atlantic Street

and Barnett Avenue, in the City of San Diego, as shown by the map attached to the application, subject to the following conditions:

- (1) Said crossing shall be constructed equal or superior to the type shown as Standard No. 3 in our General Order No. 72, and shall be constructed of a width to conform to those portions of said street and avenue now graded, with the tops of rails flush with the pavement and shall be protected by a Standard No. 1 crossing sign, as specified in our General Order No. 75 A.
- (2) Said crossing shall be protected by two Standard No. 3 wigwags and an illuminated overhead railroad crossing sign, as shown on the map attached to the application.
- (3) The cost of said construction and installation of said protection shall be borne in accordance with an agreement to be entered into between the San Diego Electric Railway Company, the Department of Public Works of the State of California and the City of San Diego. A copy of said agreement shall be filed with the Commission prior to construction of the crossing.
- (4) Applicant shall, within thirty (30) days thereafter, notify this Commission, in writing, of the completion of the installation of said crossing and of its compliance with the conditions hereof.
- (5) The authorization herein granted shall lapse and become void if not exercised within one (1) year from the date hereof unless further time is granted by subsequent order.
- (6) The Commission reserves the right to make such further orders, relative to the location, construction, operation, maintenance and protection of said crossing, as to it may seem right and proper and to revoke its permission if, in its judgment, public convenience and necessity demand such action.

The authority herein granted shall become effective on

the date hereof.

Dated at San Francisco, California, this 31st day
of July, 1933.
