BY THE COMMISSION:

THIRTEENTH SUPPLEMENTAL ORDER

By supplemental application in the above entitled proceeding filed July 20, 1933, applicants seek an order authorizing them to publish numerous changes in Tariff of Emergency Charges, E. B. Boyd's No. 252-A, C.R.C. No. 40. Of nine changes proposed all but one result in reductions. These changes have been published and became effective July 24, 1933, on interstate traffic under Special Permission of the Interstate Commerce Commission No. 126458 of June 19, 1933. This is a matter in which a public hearing does not appear to be necessary.

Upon further consideration of the record in this proceeding and the supplemental application filed July 20, 1933, and in view of the decision of the Interstate Commerce Commission by its authority No. 126458 of June 19, 1933, we are of the opinion that the changes proposed have been justified and that the relief sought should be granted, subject to the conditions set forth in the original and supplemental orders in the above numbered application; and good cause appearing therefor,

IT IS HEREBY ORDERED that the supplemental application filed July 20, 1933, be and it is hereby granted, subject to the

conditions in the original and supplemental orders in this proceeding and that the applicants above named be authorized to establish changes as set forth in the supplemental application in harmony with those authorized by the Interstate Commerce Commission in its authority No. 126458 of June 19, 1933, said changes to be established within thirty (30) days from the date of this order and only for the period ending September 30, 1933.

IT IS HEREBY FURTHER ORDERED that the carriers affected are hereby authorized to establish changes in accordance with this order which may result in departures from the long and short haul provisions of Section 21, Article XIII of the California Constitution, and of Section 24(a) of the Public Utilities Act.

IT IS HEREBY FURTHER ORDERED that the changes herein authorized may be published on one day's notice in the Tariff of Emergency Charges, E. B. Boyd's No. 252-A, C.R.C. No. 40, said tariff to be similar in character or the same as published for application on interstate traffic, and that said carriers or their duly authorized agents are further authorized to make such publication without regard to the terms of Rules 2(d), 4(1), 10(a), 10(e), 10(g) and 12(a) of Tariff Circular No. 2 of this Commission and as expiring September 30, 1933.

Dated at San Francisco, California, this 11th day of September, 1933.
