In the Matter of the Application
of the PEOPLE OF THE STATE OF
CALIFORNIA, ON RELATION OF THE
DEPARTMENT OF PUBLIC WORKS, for
an order authorizing the construc-
tion of a State highway crossing at
grade across a spur track of the
Northwestern Pacific Railroad, in

Application No. 19221.

ORIGINAL

Application No. 19070.

BY THE COMMISSION:

FIRST SUPPLEMENTAL ORDER

Applicant, The People of the State of California,
on relation of the Department of Public Works, filed with
the Commission under date of December 29, 1933, a request
that the installation of flood lights as specified in Con-
dition (5) of Decision No. 26638 dated December 11th, 1933,
be deferred until such time as there is a possibility of
night switching over said crossing by Northwestern Pacific
Railroad Company. Said applicant alleges that Northwestern
Pacific Railroad Company has no immediate plan for switching
over said crossing after dark and there will be no present
necessity for flood lights, but it will, however, install
all necessary underground conduits, bonding and track insula-
tion so that said flood lights may be installed when necessary
without disturbing the track.

It appears that this is not a matter in which a public hearing is necessary and the request should be granted, therefore

IT IS HEREBY ORDERED that Condition (5) of Decision No. 26638 be and it is hereby amended to read as follows:

- (5) The Department of Public Works shall, at its sole expense, install all the necessary underground conduits, bonding and track insulation for the installation of flood lights at said crossing. Said department shall, upon notification from said railroad that it will begin night switching over said crossing, forthwith install and maintain flood lights at said crossing.

In all other respects Decision No. 26638 shall remain in full force and effect.

Dated at San Francisco, California, this 8th day of January, 1934.
