

Decision No. 27512.

BEFORE THE RAILROAD COMMISSION OF THE STATE OF CALIFORNIA

CERTIFICATED HIGHWAY CARRIERS, INC.,
a corporation,
Complainant,
vs.

R. J. STADLER, doing business under the
fictitious name and style of S. & M.
Transfer, S. & M. TRANSFER,
Defendants.

Case No. 3983.

BY THE COMMISSION:

ORDER DISMISSING PROCEEDING

By complaint filed August 9, 1934, it was alleged that a minimum charge of 35 cents maintained by defendant in Rule 9 of its Local Freight Tariff C.R.C. No. 6 for the transportation of shipments weighing 50 pounds or less moving under class rates, was noncompensatory, unduly and unreasonably low, and that it would incite a destructive rate war to the detriment of other certificated common carriers and of the public in general. Defendant originally denied the allegations of the complaint, whereupon the matter was set for public hearing. Before the hearing was had, however, defendant applied to the Commission for authority to increase this minimum charge from 35 cents to 50 cents on shipments weighing over 25 pounds. Authority to do so was granted and the change is being made effective December 1, 1934.

Complainant now informs the Commission that its complaint has been satisfied and asks that it be withdrawn. Therefore, good cause appearing,

IT IS HEREBY ORDERED that the above entitled proceeding be
and it is hereby dismissed.

Dated at San Francisco, California, this 5th day of
November, 1934.
