In the matter of the application of PACIFIC GAS AND ELECTRIC COMPANY, a corporation, for an order of the Railroad Commission of the State of California, granting to applicant a certificate of public convenience and necessity, to exercise the right, privilege and franchise granted to applicant by Ordinance No. 231 of the City Council of the Town of San Anselmo, Marin County, State of California.

Application No. 20223.

ORIGINAL

BY THE COMMISSION:

O P I N I O N

In this application Pacific Gas and Electric Company asks this Commission to make its decision and order declaring that public convenience and necessity require and will require the exercise by applicant of the right, privilege and franchise granted to it by Ordinance No. 231 of the City Council of the Town of San Anselmo, County of Marin, a copy of which is annexed to and made a part of the application.

Applicant alleges that it is now and since the year 1901 it or its predecessors have been furnishing electric energy to the inhabitants of the Town of San Anselmo under and pursuant to the franchise granted by the provisions of Section 19 of Article XI of the Constitution of the State of California as it existed prior to the amendment adopted October 10, 1911, and the franchise granted to applicant's predecessor (California Central Gas and Electric Company) by Ordinance No. 117 of the Board of Supervisors of the County of Marin, adopted September 4, 1901 (which said franchise expired on or about September 4, 1921).

Applicant further alleges that the present and future public convenience and necessity require and will require that it

exercise the right, privilege and franchise granted to it by the aforesaid Ordinance No. 231 in order that applicant may continue to furnish and supply electric energy to said town and the inhabitants thereof for all lawful purposes.

Applicant further alleges that no person, firm or public or private corporation, other than applicant, is now engaged in the public utility business of furnishing, distributing or selling electric energy for light, heat, power or other purposes to said Town of San Anselmo or to the inhabitants thereof.

Applicant has stipulated to the effect that it, its successors or assigns will never claim before the Railroad Commission of the State of California, or before any court or other public body, any value for the aforesaid franchise in excess of the actual cost thereof, which cost is \$127.00.

After careful consideration, it is the opinion of the Commission that this application should be granted and that a public hearing in the matter is not necessary.
